Construction Debris Removal

It is required by City Code that any construction debris created by the construction project be removed by the City's trash vendor Waste Pro of Florida. Under Ordinance 2013-09 has the exclusive right to provide dumpsters and roll off containers to remove all construction debris. This includes but is not limited to the following: demolition work, renovations, re-roofs, and new construction.

Failure to adhere to this ordinance requirement could result in fines totaling to \$250.00 per day.

For further information regarding garbage containers, collection schedules, or for general service related questions, please refer to the information below.
