Chairman Rodriguez-Soto read the request into the record.

Gregory Guerra, petitioner, Andrea Montejo (wife of petitioner) and permit expeditor Marilyn Li, spoke to the variance request. Mr. Guerra stated they did hire a contractor for the structure, contractor told them they did not need permits and structure was built without permits. They have a two-year old daughter who has a skin condition that is aggravated by direct sun and heat. They provided a doctor's statement about the child's skin condition. They wanted to provide an area by their existing pool that would allow the daughter to play outside while the family is outside. There was no previously existing shade. They are first time homeowners and moved into the house in December of 2021. They confirmed the structure has a solid roof.

The members of the board who spoke to the variance request were Chair Rodriguez-Soto, Vice Chair Goggin, Members Crawl and Abbondandolo.

The members of staff who spoke to the variance request were Dean Piper and Christian Zamora. Mr. Zamora stated the family is working with staff to correct the code violation and that all of the structural and electrical elements have met code and are able to be approved. This variance is strictly about the size of the structure. Dean Piper confirmed there are no utility easements involved and that the build is within the side and rear yard setbacks.

No one from the public asked to speak to the variance request.

A motion by Vice Chair Goggin, seconded by Member Brito, to grant variance request ZV(R) 2022-29, under Sec. 155.301(O)(1)(c), to allow an existing 310 square feet hard roofed open sided free-standing patio instead of the allowed 200 square feet, open side, free standing accessory structure passed unanimously.

**PETITIONER:**

Zachary Fidler

**ADDRESS:**

**SUBJECT PROPERTY:**

**LEGAL DESCRIPTION:**

**VARIANCES REQUESTED:**

Petitioner is requesting variances to allow:

**ZV2022-0033**) a one foot (1') street side setback along the north property line instead of the required five feet (5') for an existing patio.

**ZV2022-0034**) a foot and a half (1.6') rear setback along the west property line instead of the required five feet (5') for an existing deck.

Chairman Rodriguez-Soto read the request into the record.

Zachary Fidler, petitioner, spoke to the variance request. He stated that his parents were the original owners of the home and he took over ownership when his parents passed away. He noticed that the soil around the house foundation was washed away, with rebar exposed, that the pool deck was cracking and the driveway had a sinkhole, so he filled the areas with concrete to reinforce. He did the work without permitting and without the assistance of an engineer to determine the cause of the foundation washing away, the cracks and sinkholes.

The members of the board who spoke to the variance request were Chair Rodriguez-Soto, Vice Chair Goggin, Members Abbondandolo and Crawl. Members expressed concern that

the problem is being caused by something under the foundation and that the petitioner needs to get an engineer to assess the property and discover the true problem. Dean Piper did confirm that even if the variance were to pass, engineering would still have to sign off on the permit and the reason for the deterioration of the property would still need to be determined and assessed.

The member of staff who spoke to the variance request was Dean Piper. He did remind the board that this variance is only for set-back, that permitting would have to deal with the structural assessment.

No one from the public asked to speak to the variance request.

On a motion by Vice Chair Goggin, seconded by Member Abbondandolo, to grant variance request ZV(R) 2022-33, under Sec. 155.301(O)(1)(c), to allow a one foot (1') street side setback along the north property line instead of the required five feet (5') for an existing patio, the following vote was recorded:
