Dear Friends:

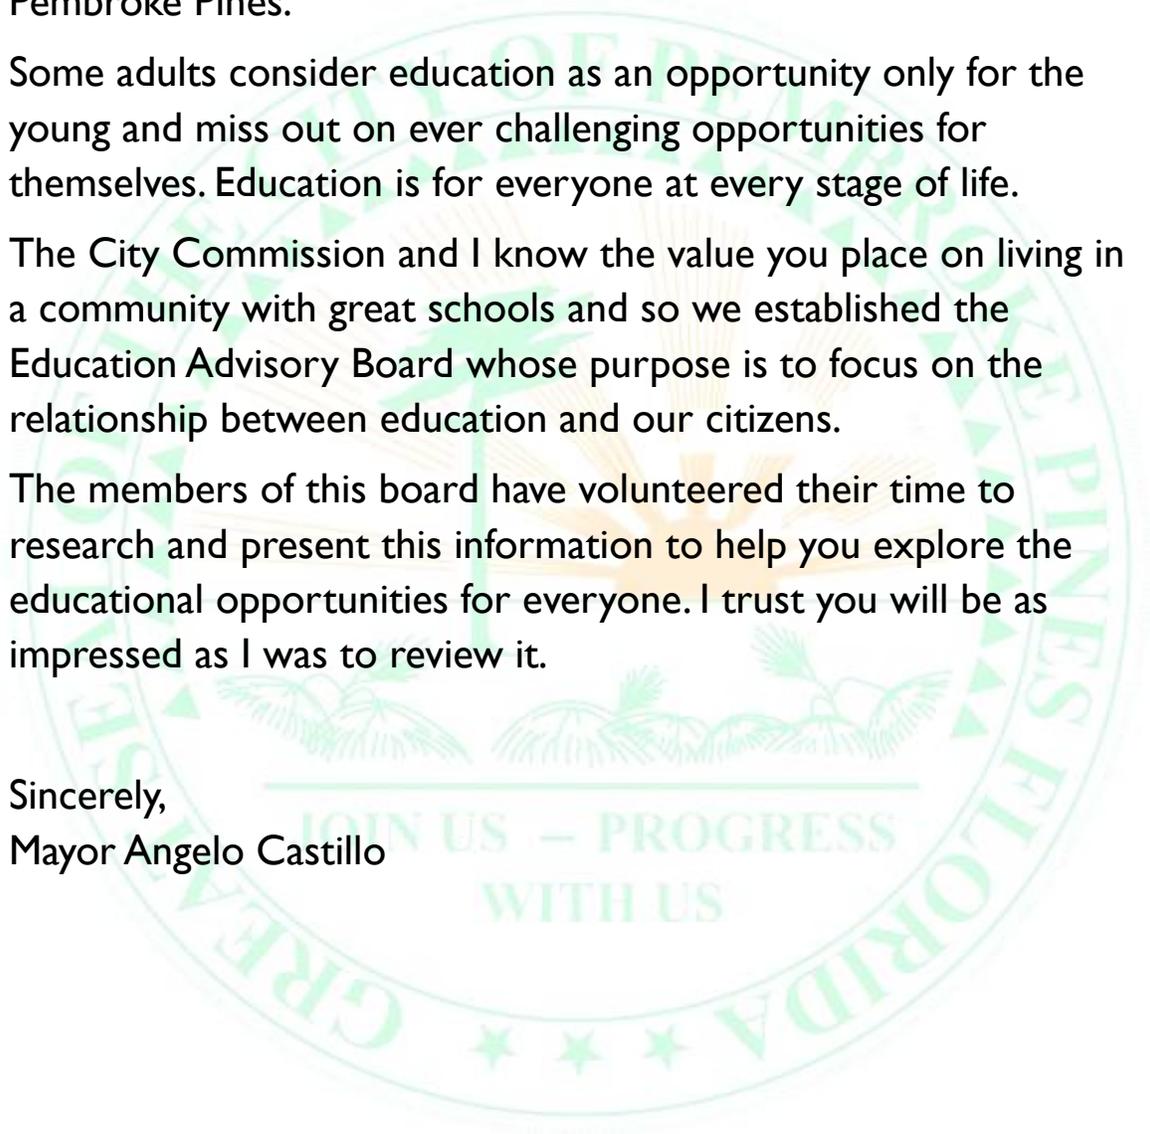

I am happy to present to you information about the educational opportunities extended by our city and educational practices to all citizens from elementary to college, for every age group in Pembroke Pines.

Some adults consider education as an opportunity only for the young and miss out on ever challenging opportunities for themselves. Education is for everyone at every stage of life.

The City Commission and I know the value you place on living in a community with great schools and so we established the Education Advisory Board whose purpose is to focus on the relationship between education and our citizens.

The members of this board have volunteered their time to research and present this information to help you explore the educational opportunities for everyone. I trust you will be as impressed as I was to review it.

Sincerely,  
Mayor Angelo Castillo
