

LOST PROPERTY

The term “lost property” describes property that is lost and not stolen. If you think that your property could have been taken, but do not have suspect information, you may still submit the report online under “Petit Theft”.

EXAMPLE:

You left your wallet at a restaurant. You return to the restaurant and searched, but could not locate your wallet. List the wallet and its contents (cash, financial cards, driver’s license, etc.) as separate items in the property sections.

DO NOT use online reporting if...

You or a witness have information about a suspect (this includes a name, or a physical description).

If you have suspect information, contact the Pembroke Pines Police Department’s non-emergency number at 954-764-HELP to file a report.
