City of Pembroke Pines

March 27, 2015

To the Citizens of the City of Pembroke Pines, Florida:

State law requires that every general-purpose local government publish within nine months of the close of each fiscal year a complete set of financial statements presented in conformity with accounting principles generally accepted in the United States (GAAP) and audited in accordance with auditing standards generally accepted in the United States, and government auditing standards by a firm of licensed certified public accountants. Additionally, the City's charter requires an annual audit of the books of account, financial records and transactions of all departments of the City by independent certified public accountants. Pursuant to these requirements, we hereby issue the Comprehensive Annual Financial Report (CAFR) of the City of Pembroke Pines for the fiscal year ended September 30, 2014.

This report consists of management's representations concerning the finances of the City of Pembroke Pines. Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these representations, the City administration has established a comprehensive internal control framework that is designed both to protect the City's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the City of Pembroke Pines' financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, the City's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As administrators, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The City's financial statements have been audited by GLSC & Company PLLC, a licensed certified public accounting firm. The goal of the independent audit was to provide reasonable assurance that the City's financial statements for the fiscal year ended September 30, 2014 are free of material misstatement. The independent audit involved examining on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded, based upon their audit, that there was a reasonable basis for rendering an unmodified opinion that the City of Pembroke Pines' financial statements for the fiscal year ended September 30, 2014, are fairly presented in conformity with GAAP. The independent auditor's report is presented as the first component of the financial section of this report.

The independent audit of the financial statements of the City of Pembroke Pines was part of a broader, federal and state mandated "Single Audit" designed to meet the special needs of federal and state grantor agencies. The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the City's internal controls and compliance with legal requirements, with special emphasis on internal controls and legal requirements involving the administration of federal awards and state financial assistance. There were no Single Audit findings during the fiscal year ended September 30, 2014.

GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The City of Pembroke Pines' MD&A can be found immediately following the report of the independent auditors.

Profile of the Government

The City of Pembroke Pines is a city in Broward County, Florida. The City had a population of 157,905 according to the April 2014 estimate by the Florida Legislative Office of Economic and Demographic Research, making it the 2nd most populous city in Broward County, and the 11th most populous in Florida. The City is located about 15 miles southwest of Fort Lauderdale, in Broward County. Pembroke Pines has an area of approximately 34.25 square miles and is bordered on the east by the City of Hollywood and extends westerly to the Conservation District, and the Everglades. To the south of the City is the City of Miramar, to the northwest are the communities of Southwest Ranches, and Weston, and to the north and northeast are Cooper City, and the Town of Davie. Commercial support includes over 50 neighborhood and community shopping centers, which are capable of supplying needed goods and services for the area.

The City of Pembroke Pines was incorporated on January 19, 1960, and operates under a Commission-Manager form of government. The City Commission is comprised of the Mayor, a Vice-Mayor and three other Commissioners who are responsible for enacting ordinances, resolutions and regulations governing the City as well as appointing the members of the various advisory boards, the City Manager, the City Attorney, the Finance Director, and the Commission Auditor. As Chief Administrative Officer, the City Manager is responsible for enforcement of laws and ordinances and hires and supervises the department directors of the City.

In addition to providing residents with public safety, general government, leisure, and public work services, the City provides water, sanitation, a recycling program, a multi-purpose Walter C. Young Resource Center, the Southwest Focal Point Senior Center, recreation facilities, housing residences and services, the Senator Howard C. Forman Human Services Campus, and it owns and operates eight Charter Schools, and five Early Development Centers. The City maintains a Glass Gallery, supervised by a curator, in the City Hall lobby that displays works by local artists, sculptors and photographers, and also presents or sponsors various arts, cultural, theatrical and festival activities for its citizens throughout the year.

The annual budget serves as the foundation for the City of Pembroke Pines' financial planning and control. All departments of the City are required to submit proposed budgets to the City Manager, who makes any necessary revisions. The City Manager then presents to the City Commission for their review, a budget estimate of the expenditures and revenues of all the City's departments and divisions. Two public hearings are conducted to inform the taxpayers of the proposed budget, to receive their comments, and to respond to their questions on the proposed budget. A majority affirmative vote of the quorum is needed to adopt the budget, which is legally enacted prior to October 1st by the passage of an Ordinance. Section 5.06 of the City Charter provides that no officer, department, or agency may legally expend or contract to expend amounts in excess of the amounts appropriated for that general classification of expenditures. The City's budget is approved at the department level. The City Manager and the Finance Director may amend the adopted budget for adjustments within a department. The City Commission must approve all other budget adjustments as well as any supplemental appropriations. Budget-to-actual comparisons are provided in this report for the General Fund for which an appropriated annual budget has been adopted. The General Fund budgetary comparison schedule, and notes to the budgetary comparison schedule are presented as part of the Required Supplementary Information.

The City owns and operates eight Charter Schools. These Schools are considered special revenue funds of the City and have a fiscal year ending June 30th. The governing body of the Schools is the City Commission comprising five voting members which consist of the City of Pembroke Pines Mayor, Vice Mayor, and three Commissioners. The Pembroke Pines City Manager also serves as the Superintendent of the Charter Schools.

The Schools operate under a charter of the sponsoring school district, the Broward County School Board (the District) and the Florida State University (FSU). Annual budgets are legally adopted for all Charter School funds which are governmental funds. The Charter Schools' budgets are approved via resolution at a public hearing conducted by the City Commission. The adopted budgets are integrated into the accounting software system effective July 1st. Section 30.30(F) of the Code of Ordinances requires a majority affirmative vote of the quorum to adopt the budgets, which prior to July 1st, are legally enacted through passage of a resolution. Section 5.06 of the City Charter provides that no officer, department or agency may legally expend or contract to expend the amounts in excess of the amounts appropriated for that general classification of expenditures. The budget is adopted at the school level, which is the legal level of control.

Factors Affecting Financial Condition

The information presented in the financial statements is perhaps best understood when considered from the broader perspective of the specific environment within which the City of Pembroke Pines operates.

National and Local Economy

The City of Pembroke Pines' positioning for progress is undoubtedly ensured for periods that extend far beyond the fifty-five years of its existence due to its geographic location surrounded by the affluent tri-county markets of Miami-Dade, Broward, and Palm Beach Counties. The Miami-Fort Lauderdale-Pompano Beach, Metropolitan Statistical Area (MSA), known as the "Gateway to the Americas", is an ideal location for conducting international business, especially in Latin America. As such, the MSA accounts for the majority of Florida's total export of goods to overseas markets. The total population based on the 2013 US Census Bureau estimates, is approximately 5.8 million and has the largest and most diverse labor force in the State. It is the 11th most populous MSA in the United States. Furthermore, it has access to a superb transportation system, including the superhighway connecting the Fort Lauderdale/Hollywood International Airport and Port Everglades, the deepest seaport between Norfolk and New Orleans, and the number one cruise ship port in Florida, and among the busiest container ports in the United States.

Essential to its progress is the City's pro-business attitude. It has an open door policy with the private sector, working with businesses on a daily basis and encouraging international trade as well as small business enterprises. The City's strict zoning regulations and a balanced land-use plan provide for the orderly development of industrial, commercial, residential, and recreational development.

Several notable statistics showed signs of economic improvement. Nationally, Gross Domestic Product (GDP) grew at the end of 2014, and rose at an annual rate of 2.6% from October through December. Consumer spending, which accounts for more than two-thirds of U.S. economic activity, grew at its fastest rate since 2006. The national and local economy struggled during the slow recovery period, but despite the struggle, there are indications that the worst is in the past. While the City of Pembroke Pines was not immune to these challenges, the City benefits from a diverse revenue stream and an efficiently managed service culture. As a result, City of Pembroke Pines has shown positive signs of stability with property values increasing by 7.8% over last year.

The level of unemployment remains an important issue in the recovery process, and has continued to steadily improve. The City's average unemployment rate continues to trend lower in contrast to the other levels of government as shown below:

	<u>FY2013-14*</u>	<u>FY2012-13*</u>
City of Pembroke Pines	4.9%	5.8%
Broward County	5.4%	6.2%
State of Florida	6.3%	7.7%
United States	6.5%	7.6%

* Average unemployment data for 2013-14 & 2012-13 is on a fiscal year basis October 1st through September 30th. Information may contain preliminary data.

The City continues to affirm its efforts to increase and encourage business investment. These efforts include, but are not limited to, continued support for the Miramar-Pembroke Pines Regional Chamber of Commerce, and eliminating burdens on businesses by expediting the permitting process. There are also many large retailers, companies and restaurants that are in the process of calling the City of Pembroke Pines their home. These are strong indications that all efforts are being made to encourage business and economic development in order to further stimulate the local economy.

Long-Term Financial Planning

Financial planning continues to be of paramount importance to the City as we strive to meet the challenges of both the immediate and the foreseeable future. The major projects undertaken by the City have long-term financial implications on resources of the City. The planning and decisions undertaken by the City are always weighed in the context of the financial burden that will be placed on both current and prospective residents, as well as the potential economic and environmental impacts.

The long-term financial focus has been a shift away from growth to one of economic development and redevelopment opportunities, in order to continue to meet the City's long-term goals and objectives. The City had to re-examine the way it does business, seeking to harness operational efficiencies while maintaining the level of services that residents have come to expect. This has been particularly challenging when faced with increasing costs and declining revenues.

Pembroke Pines has always strived to maintain low property tax rates. The City's current millage rate for the fiscal year ending September 30, 2015 is 6.2303, which is comprised of an operating millage of 5.6368 and a debt service millage of 0.5935. For the fiscal year ended September 30, 2014, the City's millage rate was 6.2776, which was comprised of an operating millage of 5.6368 and a debt service millage of 0.6408. The fiscal year 2014-15 operating millage rate, approved by the City Commission, represented a \$3.5 million or 7.5% increase in the budgeted revenues as compared to fiscal year 2013-14 adopted budget, as a result of an increase in property values.

The development of the City's capital improvement plans, as well as the annual budget, has led the City to pursue a moderate and more conservative approach to revenue forecasts, as well as renewed focus on cost-reduction, especially for personnel-related costs which accounted for approximately \$113.2 million or 68.8% of total General Fund expenditures of the 2013-14 adopted budget.

Over the past few years, cost reductions have been achieved through early retirements, eliminating vacancies, negotiated reductions to benefit packages for both new and existing employees, the outsourcing of various City positions to an external contractor, and the postponement of capital expenditures. Effective October 1, 2014, the General Employees' Pension Plan was closed to non- bargaining unit members, and a defined contribution plan will be established for all the general employees.

Long-term financial planning has also been taken into account for some major projects undertaken by the City, including the “Building Our Future Program” whereby the City issued \$90.0 million in General Obligation bonds (“G.O. Bonds”), and an additional \$10.0 million in G.O. Bonds will be issued in 2015 for the City Center Project. This continues to provide, and is expected to create new economic opportunities for the City. Some of these projects are discussed in more detail below under “Major Initiatives”.

Relevant Financial Policies

The City adopts various financial policies in order to facilitate effective goal setting and decision making. These policies establish the framework for sound financial oversight of the City’s operations. In light of the economic and credit crisis, it is important that debt issues be undertaken in a prudent manner, in accordance with the City’s “Debt Management Policy” as adopted by the City Commission. Understanding and managing the risks associated with these transactions is critical to the City’s financial health. The City is currently in compliance with its Debt Management and Derivative Policy. The Debt Management Policy stipulates that debt refunding undertaken by the City must ensure that the net present value savings, as a percentage of the par amount of the refunding bonds, equal or exceed 3% and equal or exceed \$100,000. On May 29, 2014, the City remarketed \$62.5 million of the Charter School Revenue Bonds, Series 2008, which resulted in an annual average savings of \$139,000 for the next four years. Also, on September 10, 2014, the City refunded \$41.1 million of the Taxable Communications Services Tax Revenue Bonds, Series 2004, and \$31.6 million of the Public Improvement Revenue Bonds, Series 2004A and 2004B, which resulted in a net present value savings of \$3.6 million and \$4.7 million, respectively. The City is in the process of reviewing additional refunding opportunities, given the low interest rate environment.

The importance of monitoring the City’s fund balance levels has become an integral part of its overall financial planning. Over the last year, the City has developed the budget in such a way as to preserve unassigned fund balance in the General Fund at not less than 10% of the total annual General Fund expenditures. This also provides a contingency for unexpected future events. The City’s adopted Fund Balance Policy covers the General Fund and specifies the course of action in the event that the unassigned fund balance falls below the minimum level of 10%. The City’s General Fund unassigned fund balance for fiscal year 2013-14 is \$20.5 million which is 13.2% of budgeted expenditures and falls within the established policy guidelines. This reflects a decrease of \$21.6 million over last year. This temporary decline is due to the purchase of the former Florida Department of Correction property from the State of Florida which is approximately 66 acres, and 43.4 acres from Weekley Brothers Leasing Ltd. Both properties are expected to be sold in fiscal year 2014-15 and will reestablish the City’s unassigned fund balance to its former levels.

The City will continue to review its financial policies and procedures to ensure that they continue to meet the regulatory and operational frameworks at the highest level.

Major Initiatives

There are many projects and initiatives that have been undertaken by the City over the last year, some of which have spanned numerous years. Some of the City’s major initiatives and projects are discussed below.

On January 13, 2005, the City Commission decided to undertake a bold initiative in the City, which has been dubbed the “Building Our Future Program”. On March 8, 2005, the registered voters of the City passed a bond referendum authorizing the City to issue up to \$100.0 million in G.O. Bonds with maturity not exceeding 30 years, to be repaid from the proceeds of ad valorem taxes. The first series of these bonds was issued on September 30, 2005, for \$47.0 million. On July 25th, 2007, the City issued an additional \$43.0 million and reduced the number of projects to be funded by the G.O. Bonds. On January 21, 2015, the City Commission approved the issuance of an additional \$10 million G.O. Bonds. This will bring the total bonds issued for the “Building Our Future Program” to \$100.0 million.

G.O Bond Projects

The projects funded from the proceeds of the bonds range from various roadwork projects and recreational and cultural amenities to economic development and neighborhood revitalization. Some of these projects are direct responses to requests made from the citizenry, while others are a result of the visions of progress, and the proactive stance of the City's Mayor and Commissioners. Many of the projects have focused on additions and improvements to the City's parks and recreational facilities, and major improvements to several strategic roadways throughout the City.

A total of 155 projects were approved by the City Commission relating to the "Building Our Future Program". As of December 2014, 110 projects were fully completed, 4 projects were in the construction phase, 5 projects were in the design/planning phase, 13 projects were re-allocated, 22 projects were eliminated, and 1 projects had not yet begun. The current budget is \$96.6 million (the difference between the current budget and the \$90.0 million borrowed is due mainly to interest earned). Of the \$96.6 million, \$83.5 million or 86.5% has been spent or allocated to projects as of December 31, 2014.

Streetscape improvements enhance and update the City's infrastructure in a cost-effective manner as well as provide the City with much needed identity at its borders. The streetscape plan is an ongoing project with full cost to implement estimated at over \$7.5 million dollars. Phase 1 which includes 20 solar-powered signs and landscaping is funded by the 2005 GO bonds for \$250,000. Construction begun in 2013 and is approximately 50% completed. Currently, the City is waiting for Florida Department of Transportation (FDOT) to issue permits for the remaining signs.

City Center

The plans for "City Center" remain to be a project of significant importance in terms of both financial implications and resource allocation needed for its development. This project initially started in fiscal year 2003 with the purchase of approximately 115 acres of undeveloped land adjacent to City Hall for \$22.0 million. This site is the last major piece of undeveloped property along the Pines Boulevard corridor, and will provide a unique opportunity for the City to ensure that the needs and well-being of our residents are properly evaluated and provided for in a controlled environment. The City is overseeing the development of this property as a "City Center" for the benefit of our residents. In addition to the initial investment, the City has spent an additional \$39.2 million for spine roads, infrastructure and hardscape development.

The City Commission and the administration have worked arduously to develop strategies to promote the sale and development of City Center. On January 25, 2011, the City Commission approved the sale of 27.2 acres at City Center to Mill Creek Residential Trust LLC, which will develop a total 700 multifamily units and related amenities such as a clubhouse, outdoor playground, and parking for a total purchase price of \$18.7 million. The developer completed construction of Phase 1, consisting of 422 units in 2014, and has begun construction of phase 2 of the project. Phase 2 will add 278 units and should be completed in late 2015.

On October 3, 2012, the City Commission approved the sale of approximately 11 acres at City Center to RD Pembroke Apartments, LLC for \$9.5 million. The sale closed on August 25, 2014. RD Pembroke Apartments, LLC, has begun to build 365 market rate multi-family units on the property. This project is expected to be completed by early 2016.

On June 18, 2014, the City Commission approved the contract between the City and Stiles Construction for design-build services for the construction of the Civic Center and City Hall in the amount of \$58.6 million. The proceeds for this project will come from the sale of various properties, including the existing City Hall site, the additional \$10.0 million in G.O. Bonds, and other available bond proceeds. This project is expected to break ground in April 2015 and will be completed by the fall of 2016. The overall design and concept as presented will make this facility the “Crown Jewel” of the City Center project, and perhaps the entire City as a whole.

Furthermore, on February 4, 2015, the City Commission approved the sale of approximately 47.5 acres of property, including the northern portion of the City Hall parcel and the remaining acreage of the City Center property to Terra World Investment, LLC. Terra World Investments has surveyed the property and conducted their due diligence, and is in the process of submitting preliminary site plans amendments for the project which will be developed in three phases to include, commercial, residential, hotel and office.

Real Estate

The City has also been involved in other real estate transactions in order to encourage economic development as well as provide additional services to the residents of the City. On November 19, 2013, the City approved the sale of 79.88 acres of the remaining Raintree Property to Hoyer Homes LLC in the amount of \$7.1 million. Hoyer Homes LLC previously purchased 32.9 acres of this property in February 2013 for \$3.1 million. They are scheduled to build 300 multi-family and single family units. This project is expected to be completed by the end of 2016. The City originally acquired the Raintree Golf and Country Club back in February 2009 for \$9.1 million, using G.O. Bond proceeds.

On September 11, 2014, City purchased the Broward Correctional Institution Property from the State of Florida for \$13.5 million. On October 28, 2014, Commission approved the sale to Industrial Developments International (IDI), LLC of the property for \$14.25 million. IDI proposes to develop a business/industrial park with a minimum of 750,000 square feet along with the associated amenities, easements, access, parking and signage.

Road Projects

Another significant project that the City is involved with is the construction of the Pembroke Road/I-75 Overpass. This project requires the collaboration of multiple agencies including the Florida Department of Transportation (FDOT), Broward County, the City of Miramar, and the City of Pembroke Pines.

The I-75 improvements and the Pembroke Road overpass bridge construction project has begun, and will be completed under two contracts. This first contract includes the approaches to the overpass bridge, and the second contract is the overpass bridge itself along with the I-75 improvements. The first contract is being managed by Broward County and includes the western approach to the bridge from Silver Shores Blvd east to I-75, the eastern approach from SW 145th Avenue west to I-75, and construction of a sound barrier wall. Construction under this contract is expected to be completed in January 2016.

The second contract is being managed by FDOT and includes the I-75 Express Lanes and the Pembroke Road overpass bridge. The express lanes improvements generally consist of a sound barrier wall, divided 4-lane tolled roadway (two 12-foot travel lanes in each direction), and reconstruction of the Miramar Parkway Interchange. Bids were received for the first contract on November 13th, 2013 for the approaches to the overpass bridge. FDOT received price proposals for the I-75 overpass bridge in January 2014. The completion date for the I-75 Express Lanes and

associated interchange improvements will be early 2018. The City has committed \$2.1 million from the Road & Bridge Fund for this project.

Awards and Acknowledgements

The City of Pembroke Pines continues to receive many awards and accolades, some of these are listed below, and some are listed in the Statistical Section of this report.

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of Pembroke Pines for its Comprehensive Annual Financial Report for the fiscal year ended September 30, 2013.

This was the twenty-ninth consecutive year that the City has earned this prestigious award. In order to be awarded a Certificate of Achievement for Excellence in Financial Reporting, the City must publish an easily readable and efficiently organized Comprehensive Annual Financial Report. This report must satisfy both accounting principles generally accepted in the United States and applicable legal requirements.

A Certificate of Achievement for Excellence in Financial Reporting is valid for a period of one year only. We believe that our current Comprehensive Annual Financial Report (CAFR) continues to meet the Certificate of Achievement for Excellence in Financial Reporting program's requirements, and we are submitting it to GFOA to determine its eligibility for another Certificate.

The City also received the Government Finance Officers Association's Distinguished Budget Presentation Award for the annual appropriated budget for the fiscal year beginning October 1, 2013. The City of Pembroke Pines has received this award consecutively for seventeen years since the fiscal year beginning October 1, 1997. In order to qualify for the Distinguished Budget Presentation Award, the City's budget document was judged to be proficient in several categories including meeting program criteria as a policy document, as a financial plan, as an operational guide, and as a communications device.

A Distinguished Budget Presentation Award is valid for a period of one year only. We believe that our current budget continues to meet the Distinguished Budget Presentation Award program's requirements, and we are submitting it to the GFOA to determine its eligibility for another award.

The City's Charter Schools' budget also received the GFOA Distinguished Budget Presentation Award for their fiscal year beginning July 1, 2014. This is the eleventh consecutive year that the Charter Schools received this award since the fiscal year beginning July 1, 2004.

The City of Pembroke Pines is a vibrant, and diverse community. As we continue to provide excellent services to our residents and business community, we are committed to doing so in the most cost-effective and efficient way possible in order to minimize negative impacts on our residents. We understand the importance of achieving the balance of fiscal responsibility and superb service delivery; and remain fully and completely dedicated to materialize our vision and live out our motto "Join us – progress with us".

Sincerely,

INDEPENDENT AUDITORS' REPORT

Honorable Mayor, City Commission, and City Manager
City of Pembroke Pines, Florida,

Report on Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of City of Pembroke Pines, Florida, as of and for the year ended September 30, 2014, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the Pension Trust Funds for Firefighters and Police Officers, which represent 69% of the net position, 63% of additions, and 62% of deductions of the fiduciary fund totals. Those statements were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for the Pension Trust Funds for Firefighters and Police Officers, is based solely on the report of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions

Opinions

In our opinion, based on our audit and the report of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Pembroke Pines, Florida, as of September 30, 2014, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As described in note to the financial statements, in 2014, the City adopted new accounting guidance, GASB Statement No. 65, items previously reported as assets and liabilities. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, schedules of contributions, funding progress, changes in net pension liability and related ratios, employer contributions and annual weighted rate of return, and budgetary comparison information on pages 4 - 21 and 138 – 148, respectively, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Pembroke Pine's basic financial statements. The introductory section, combining and individual nonmajor fund financial statements, schedule of revenues, expenditures, and changes in fund balances – budget to actual and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements. The accompanying schedule of expenditures of federal awards, state financial assistance projects and local awards is presented for purposes of additional analysis as required by U.S. office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and Chapter 10.550, Rules of the Auditor General, and is also not a required part of the financial statements.

The combining and individual nonmajor fund financial statements, schedule of revenues, expenditures, and changes in fund balances – budget to actual on pages 149 through 164 and the schedule of expenditures of federal awards, state financial assistance projects and local awards on pages 205 through 207 are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements, the schedule of revenues, expenditures, and changes in fund balances – budget to actual, and the schedule of federal awards, state financial assistance projects and local awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated March 26, 2015, on our consideration of the City of Pembroke Pines, Florida's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering City of Pembroke Pines, Florida's internal control over financial reporting and compliance.

Management's Discussion and Analysis

City of Pembroke Pines, Florida

Management's Discussion and Analysis

As management of the City of Pembroke Pines, we offer readers of the City's financial statements this narrative overview and analysis of the financial activities of the City for the fiscal year ended September 30, 2014. Readers are encouraged to consider the information presented here in conjunction with additional information that is furnished in the letter of transmittal, which can be found on pages i to viii of this report.

Financial Highlights

- The assets and deferred outflows of resources of the City of Pembroke Pines exceeded liabilities and deferred inflows of resources at the close of the most recent fiscal year by \$385.1 million (*net position*), as compared with \$360.5 million for the previous fiscal year, as restated. Of this amount, \$120.8 million (*unrestricted net position*) may be used to meet the City's ongoing obligations to citizens and creditors.
- The City's total net position increased by \$24.6 million (6.8%) during the current fiscal year. Included in the total net position is the governmental net position which increased by \$16.7 million (12.1%), and the business-type net position, which increased by \$7.9 million (3.5%).
- At the end of the current fiscal year, unrestricted net position of the City's governmental activities had a surplus of \$35.1 million, or 15.5% of total governmental activities expenses. The unrestricted net position of the business-type activities was \$85.7 million, or 206.5% of total business-type expenses for the year.
- As of the close of the current fiscal year, the City's governmental funds reported combined ending fund balances of \$100.6 million, a decrease of \$3.7 million (-3.5%) in comparison with the prior year. Approximately \$20.5 million (20.4%) of this total amount is available for spending at the City's discretion (*unassigned fund balance*).

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the City of Pembroke Pines' basic financial statements. The City's basic financial statements consist of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the basic financial statements. In addition to these basic financial statements, this report also contains other supplementary information.

Government-wide financial statements. The *government-wide financial statements* are designed to provide readers with a broad overview of the City's finances, in a manner similar to a private-sector business.

The *statement of net position* presents information on all of the City's assets, liabilities, and deferred inflows/outflows of resources, with the difference between these components is the *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The *statement of activities* presents information showing how the City's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

The statement of activities distinguishes functions of the City that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The governmental activities of the City include general government services, public safety, physical environment, transportation, economic

City of Pembroke Pines, Florida

Management's Discussion and Analysis

environment, human services, culture and recreation, and interest on long-term debt. The business-type activities of the City include water, and sewer/wastewater operations.

The government-wide financial statements can be found on pages 22-23 of this report.

Fund financial statements. A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into three categories: 1) governmental funds, 2) proprietary funds, and 3) fiduciary funds.

Governmental funds. *Governmental funds* are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the City's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the City's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The City maintains several individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balances for the General, Debt Service and Capital Projects funds, all of which are considered to be major funds. Data from the other governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds are provided in the form of combining statements on pages 149-152 of this report.

The City adopts an annual budget for its General Fund. A budgetary comparison schedule and the notes to the budgetary comparison schedule have been provided for the General Fund to demonstrate compliance with the budget, on pages 138-141. The basic governmental fund financial statements can be found on pages 24-27 of this report.

Proprietary funds. The City maintains two different types of proprietary funds. An *enterprise fund* is used to report the same functions presented as *business-type activities* in the government-wide financial statements. The City uses an enterprise fund to account for its water and sewer operations. An *internal service fund* is used to account for the City's insurance coverage provided to all departments on a cost reimbursement basis. The City of Pembroke Pines is self-insured.

The basic proprietary fund financial statements can be found on pages 28-32 of this report.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the City. Fiduciary funds are *not* reflected in the government-wide financial statement because the resources of those funds are not available to support the City's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

The basic fiduciary fund financial statements can be found on pages 33-34 of this report.

City of Pembroke Pines, Florida

Management's Discussion and Analysis

Notes to the basic financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

The notes to the basic financial statements can be found on pages 35-137 of this report.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information, which includes information concerning the City's progress in funding its obligation to provide pension benefits to its employees and the budgetary comparison schedule of the General Fund.

Required supplementary information can be found on pages 138-148 of this report.

The combining statements referred to earlier in connection with nonmajor governmental funds are presented immediately following the required supplementary information.

Combining and individual fund statements and schedules can be found on pages 149-152 of this report.

Government-wide Financial Analysis

As noted earlier, net position over time, may serve as a useful indicator of the City's financial position. In the case of the City of Pembroke Pines, assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$385.1 million at the close of the most recent fiscal year, which represents a 6.8% increase compared to last year's net position, as restated of \$360.5 million. By far the largest portion of the City's net position, \$239.8 million (62.3%), represents net investment in capital assets, which is net of related debt. This includes land, construction-in-progress, buildings, improvements other than buildings, machinery and equipment, infrastructure, and intangibles, net of accumulated depreciation and less any related outstanding debt used to acquire those assets. The City uses these capital assets to provide services to citizens; consequently, they are *not* available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided by other sources as the capital assets themselves cannot be used to liquidate these liabilities.

Another portion of the City's net position, \$24.5 million (6.4%), represents resources that are subject to external restrictions on how they may be used. This balance increased by approximately \$2.9 million (13.4%), which was mainly attributable to a \$1.2 million increase in the governmental activities restricted net position related to the debt service and a \$1.6 million increase related to the restricted net position for the road and bridge fund. The restricted net position for the business-type activities increased slightly by \$0.6 million (85.7%).

City of Pembroke Pines, Florida

Management's Discussion and Analysis

Revenues:

Revenues from Governmental activities increased by approximately \$10.6 million (4.5%) over last year. Total program revenues, consisting of charges for services, operating grants and contributions, and capital grants and contributions, increased overall by \$5.1 million (4.1%), and general revenues increased by \$5.5 million (5.1%).

Program revenues showed a \$3.0 million increase in charges for services, a \$1.9 million increase in operating grants and contributions, and a \$0.2 million decrease in capital grants and contributions.

Charges for services increased by \$3.0 million. This was mainly as a result of a \$1.5 million increase in general government services and a \$1.2 million increase in human services. General government services increase is attributable to an increase in administrative fees for general, technical services, and sanitation. The \$1.2 million increase in human services is due to an increase by the State for Teacher Salary Allocation revenues of \$0.9 million that was not received in prior years.

General revenues, increased by \$5.5 million (5.1%). Overall, all revenue categories, with the exception of communications services tax, experienced an increase over last year as the economy experienced positive growth. Franchise fees increased by \$2.2 million of which \$1.5 million was an increase in franchise fees on sanitation. Property taxes increased by \$1.6 million as a result an increase in property tax values and intergovernmental revenues-unrestricted also increased by \$0.9 million due to increased state-shared sales tax proceeds. However, increases in general revenues were offset by a \$1.2 million decrease communication services tax (CST) due to a technology shift to internet usage which is not taxed by CST.

City of Pembroke Pines, Florida

Management's Discussion and Analysis

Expenses:

Governmental activity expenses decreased by \$4.8 million (-2.1%) over last year. This decrease took place in all governmental functions/programs except general government services, economic environment, and human services.

General government services, economic environment, and human services increased \$0.9 million (4.4%), \$1.5 million (14.1%), and \$1.6 million (2.9%), respectively. These were mainly attributable to the function sourcing, increase in building maintenance, and the implementation of the technology modernization throughout the entire City.

Public safety decreased \$5.8 million (-5.6%) as a result of Police and Fire restructuring in personnel. \$2.9 million of this decrease was attributable to the consolidation of the E-911 services to Broward County. All other salaries and benefits for public safety decreased by \$1.6 million and operating expenditures declined by \$1.4 million, of which \$1.2 million was as a result of the repayment to Federal Emergency Management Agency (FEMA). The City signed a two-year repayment agreement with FEMA but the full amount of the repayment was accrued in fiscal year 2013.

Culture/recreation decreased \$1.7 million (-14.1%) mainly due to the \$1.1 million reduction in capital asset depreciation and disposal. Interest on long term debt decreased \$1.2 million (-6.7%) as a result of the savings from bond refundings and remarketing.

City of Pembroke Pines, Florida

Management's Discussion and Analysis

Business-type activities. The net position of the City's business-type activities increased by \$7.9 million (3.5%) from \$222.9 million in the last fiscal year to \$230.8 million in the current fiscal year.

Revenues:

Revenues from business-type activities increased over last year by \$2.9 million (6.3%). The main factor contributing to this was an increase of \$2.3 million in investment earnings-not restricted as a result of sale of approximately 11 acres to RD Pembroke Apartments, LLC.

City of Pembroke Pines, Florida

Management's Discussion and Analysis

Expenses:

Expenses of the business-type activities decreased by \$0.6 million (-1.4%) to \$41.4 million. This was attributable to a \$1.2 million decrease in sewer/wastewater services and offset by increases in water utility services and water-sewer combined service of \$0.1 million and \$0.5 million, respectively.

Overall, for the business-type activities, personnel costs including benefits decreased by \$2.2 million mainly as a result of function sourcing. Operating costs increased by \$1.7 million which was mainly due to the transition to function sourcing, a \$0.7 million increase in the administrative fees and \$0.4 million increase in depreciation expenses. The water and sewer treatment charges related to the City of Hollywood contract decreased by \$1.9 million over last year.

Management's Discussion and Analysis

Financial Analysis of the City's Governmental Funds

As noted earlier, the City of Pembroke Pines uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the City's *governmental funds* is to provide information on near-term inflows, outflows, and balances of *spendable* resources. Such information is useful in assessing the City's financing requirements. In particular, *unassigned fund balance* may serve as a useful measure of the City's net resources available for discretionary use as they represent the portion of fund balance which has not earmarked for a particular purpose by either an external party, the City of Pembroke Pines itself, or a group or individual that has been delegated authority to assign resources for use for particular purposes by the City Commission.

As of the end of the current fiscal year, the City's *governmental funds* reported combined ending fund balances of \$100.6 million, a decrease of \$3.7 million in comparison with the \$104.3 million prior year balance. Overall, governmental funds' assets and liabilities increased by \$9.9 million and \$13.6 million, respectively compared to last year.

Approximately \$20.5 million (20.4%) of total governmental fund balance of \$100.6 million, represents unassigned fund balance, which is available for spending at the City's discretion. The remainder of fund balance is either nonspendable, restricted or assigned to indicate it is not available for new spending because it has already been set aside for a variety of purposes, such as construction projects, debt service, and grant expenditures, or has been assigned by the City administration for disaster assistance, rent payments and subsequent year's budget.

Management's Discussion and Analysis

General Fund

The General Fund is the main operating fund of the City. General tax revenues and other receipts that are not allocated by law or contractual agreement to another fund are accounted for in this fund. General operating expenses, fixed charges and capital improvement costs not paid through other funds are paid from this fund. At the end of the current fiscal year, unassigned fund balance of the General Fund was \$20.5 million, as compared with \$42.1 million in the prior year. For fiscal year 2014, unassigned fund balance represents 13.2% of total general fund expenditures, excluding transfers. Assigned fund balance increased to \$9.0 million from \$8.8 million, the majority of which is assigned for the subsequent year's budget for technology upgrades.

General Fund Revenues:

The amount of General Fund revenue by type, their percent of the total and the amount of change compared to last fiscal year are shown in the following schedule:

Compared to the prior fiscal year, total General Fund revenues increased by \$7.4 million or 5% in fiscal year 2014. This was mainly attributable to a \$2.0 million increase in permits, fees and licenses, a \$1.8 million increase in property taxes, \$1.4 million increase in special assessments, and a \$1.1 million increase in utility taxes.

Fire protection special assessment increased by \$1.4 million increase, which is directly driven by an increase in fire protection costs.

The \$1.1 million decrease in communication services tax (CST) was due to a technology shift to internet usage which is not taxed by CST.

City of Pembroke Pines, Florida

Management's Discussion and Analysis

Property tax revenues increased by \$1.8 million as the City maintained the same operating millage rate of 5.6368 mills. However, the City benefited from an increase in taxable values of approximately 4.3% as compared with a 1.2% increase in the previous year.

General Fund Expenditures:

Expenditures of the General Fund are shown in the schedule below:

In fiscal year 2014, total General Fund expenditures increased \$5.7 million compare to \$11.1 million in prior fiscal year.

City of Pembroke Pines, Florida

Management's Discussion and Analysis

Overall, the main contributing factor to the \$5.7 million increase in General Fund expenditures is due to a \$2.3 million decrease in salaries and a \$7.4 million increase in benefits. Retirement contributions to the General Employees' pension increased by \$7.6 million to reduce the unfunded liability of the plan. The City's contribution to the Police Officers and Firefighters pension also increased by \$0.8 million all relating to an increase in the ARC. There was also a \$0.9 million increase in health benefits. These increases are offset by a \$1.9 million decrease in life and workers' compensation benefits. Operating expenditures increased by \$0.7 million mainly due to the increase in software and computer equipment. These increase were offset by a \$1.2 million decrease in the payment to FEMA that was accrued in fiscal year 2013.

Other Major Governmental Funds:

Debt Service Fund

The fund balance in the Debt Service Fund decreased by \$1.6 million (10.5%) as compared with fiscal year 2013 mainly as a result of bonds refundings. Additional information can be found in the Capital Assets and Debt Administration section on pages 18-19.

Capital Projects Fund

Total fund balance of \$21.5 million in the Capital Projects Fund is restricted. The \$5.1 million decrease from last year is mainly attributable to an increase in spending related to the General Obligation Bonds and various other construction projects being undertaken by the City.

Proprietary Funds: The City's proprietary funds provide the same type of information found in the government-wide financial statements but in more detail.

Unrestricted net position at the end of the year for the Utility Fund amounted to \$85.2 million compared to \$75.1 million in the prior year. Other factors concerning the finances of this major fund have already been addressed in the discussion of the City's business-type activities.

General Fund Budgetary Highlights

Revenues

Actual revenues were \$1.8 million or 1.1% above the final budget due mostly to variances in the following categories:

- **Taxes** - \$0.8 million favorable budget variance consisted primarily of the following:
 - \$0.4 million favorable in property tax resulting from only some property owners taking advantage of the early payment discount.
 - \$0.8 million favorable in Public Service Tax Electricity due to base rate increases and an increase in consumption.
 - \$0.8 million unfavorable in Communication Service Tax (CST) due to a technology shift to internet usage which is not taxed by CST.
 - \$0.3 million favorable in premium taxes stemming mainly from increases in insurance rates in combination with the number of policies issued.
- **Permits, fees, and licenses** - \$1.6 million favorable was largely attributable to \$0.7 million in Franchise Fees – Electricity due to base rate increases along with an increase in consumption and \$0.3 million in Fire Protection Special Assessment resulting from only some property owners taking advantage of the early payment discount.
- **Miscellaneous** - \$1.1 million unfavorable due principally to a \$0.6 million underperformance in return on investments as a result of the low interest rate environment and a \$0.4 million shortfall in rental income from the State Hospital Site as a consequence of occupancy levels being below expectation.

Expenditures

Actual expenditures excluding transfers to other funds were \$2.3 million or 1.5% below the final budget due largely to the \$1.9 million budget savings in Police, which consisted primarily of the following:

- \$1.9 million budget savings in capital of which \$1.8 million was carried forward to fiscal year 2015.
- \$0.7 million budget savings in numerous operating accounts.
- \$0.8 million negative budget variance in personnel due to an additional contribution to the General Employees' Pension Plan.

Fund balance was originally projected to remain the same; subsequent budget amendments created an unfavorable change to \$2.0 million. However, the actual change in fund balance was a favorable \$2.1 million, which resulted in a \$4.1 million favorable variance from the final budget. This variance consisted of favorable revenue budget variances of \$1.8 million and expenditure budget savings of \$2.3 million. Details of these variances are provided above.

Capital Assets and Debt Administration

Capital Assets. The City's capital assets for its governmental and business-type activities as of September 30, 2014, amounted to \$487.1 million (net of accumulated depreciation), compared with \$494.3 million last fiscal year. These assets include land, construction in progress, buildings, improvements other than buildings, machinery and equipment, and infrastructure. The total decrease in the City's capital assets for the current fiscal year was \$7.1 million (-1.5%).

Additions to capital assets for governmental activities included, but are not limited to the following:

- \$4.1 million was spent various capital projects funded by the 2005 and 2007 General Obligation (G.O.) Bonds such as:
 - \$0.5 million to build the Charter High School football stadium;
 - \$0.5 million to complete the construction of additional soccer fields at the West Pines Soccer Park, the total project cost was \$1.5 million.
 - \$1.7 million to complete roadway improvements for SW196th Avenue from Pembroke Road to Pines Boulevard, and
 - \$1.3 million to construct a noise wall on Taft Street and Douglas Road.
- \$0.7 million to build the Civic Center and \$0.6 million to build the gallery at the new City Hall.
- \$1.9 million was spent to replace vehicles. Of this amount, \$0.9 million replaced fire engines and ambulances.
- \$0.9 million was spent on computer equipment as part of the technology modernization project.

Management's Discussion and Analysis

Additions to capital assets for business-type activities included but are not limited to the following:

- \$1.6 million for Sewer plant rehabilitation.
- \$0.2 million for generator.
- \$0.2 million for water main improvements.

Additional information on the City's capital assets can be found in Note 6. starting on page 64 of this report.

Long-term Debt. At the end of the current fiscal year, the City had total bonds outstanding of \$356.0 million. The majority of the City's outstanding debt is secured by specified revenue sources.

On October 15, 2013, the City refunded \$34.7 million of the Taxable Communications Services Tax Revenue Bonds, Series 2003A. On May 29, 2014, the City remarketed \$62.5 million of the Charter School Revenue Bonds, Series 2008. On September 10, 2014, the City refunded \$41.1 million of the Taxable Communications Services Tax Revenue Bonds, Series 2004, and \$31.6 million of the Public Improvement Revenue Bonds, Series 2004A and 2004B. The reduction in total debt outstanding was a result of normal debt service expenditures for principal and interest and the savings from the October refunding and the May remarketing. Additional information on the refunding can be found in Note 9. starting on page 71 of this report.

All of the outstanding bonds, except the Reissued Variable Rate Capital Improvement Revenue Refunding Bonds (Susan B. Anthony Center), Series 2008, the Capital Improvement Revenue Refunding Bonds, Series 2010, and the Consolidated Utility System Revenue Bonds, Series 2010 (which are Bank Direct Purchase Revenue Bonds), are insured and had, in the past, the highest bond ratings until the downgrade of the bond insurers by the Rating Agencies. Consequently the insured ratings on these bonds were downgraded. Such ratings reflect only the respective views of the Rating Agencies. Generally, Rating Agencies base their ratings on information, materials, investigations, studies and assumptions made by them. There is no assurance that such ratings will be maintained for any given period of time or that they may not be lowered, suspended or withdrawn entirely by the Rating Agencies, if in their judgment, circumstances warrant the change.

Both General Obligation Bonds received an underlying rating from Moody's Investors Service of Aa2 and AA from Fitch Ratings. On January 26, 2015, Fitch Ratings affirmed its AA rating. Additional information on the City's long-term debt can be found in Note 9. starting on page 71 of this report.

Management's Discussion and Analysis

Economic Factors and Next Year's Budgets and Rates

The City's local economy is primarily based upon retail and service activities. The occupancy rate of the City's retail establishments and office structures remains at approximately 95%. Only 5% of the City remains undeveloped. As the City nears build-out, its focus will be on redevelopment.

The unemployment rate for the City of Pembroke Pines for the fiscal year ended September 30, 2014 was 4.9%, as compared to 5.8% a year ago. This compares favorably to unemployment rates for Broward County, which was 5.4%, and 6.3% for the State of Florida for the same period.

During fiscal year 2014, unassigned fund balance in the General Fund decreased to \$20.5 million, compared to \$42.1 million from last year. This reduction is due to the purchase of the former Broward County Correctional Institute property from the State of Florida and 43.4 acres from Weekly Bros Leasing LTD. These properties are expected to be sold in fiscal year 2015, which will restore the fund unassigned fund balance. Over the last several years, with the exception fiscal year 2011 and fiscal year 2014, the City has been able to increase its unassigned fund balance as shown in the following graph. The City has assigned \$9.1 million for next year's budget which includes proposed technology upgrades.

City of Pembroke Pines, Florida

Management's Discussion and Analysis

General Fund

For fiscal year 2015, the largest revenue source, Ad Valorem (property) Tax, which is 31.2% of the total general fund revenue budget, is budgeted at the same operating millage rate as fiscal year 2014 of 5.6368, generating \$51.3 million, which is \$3.5 million higher than fiscal year 2014 adopted budget. This increase is attributable to a 7.9% increase in taxable values. The debt service millage reflects a decrease of 0.0473 mills, moving from 0.6408 to 0.5935 mills. Ad Valorem taxes associated with the debt service millage are recorded in the Debt Service Fund.

The 2015 expenditure budget of \$164.5 million is \$8.3 million greater than the fiscal year 2014 adopted budget of \$156.2 million. The largest component of this increase is capital expenditures ensuing from the postponement of capital purchases during the recession. Compared to the 2014 adopted budget, the operating budget for 2015 reflects a \$7.4 million or 88.3% increase, which is the result of increase in personal and benefit costs.

The General Fund 2015 budget for capital items reflects a \$1.1 million or 17.7% increase over the 2014 adopted budget, of which \$3.4 million represents purchases of additional police vehicles, and \$0.7 million represents the purchase of breathing apparatus and stretchers for the fire department.

Utility Fund

Effective October 1, 2014, water and sewer rates increased by 1.95% over last year's rates for all residential and commercial properties. This increase reflects the annual increase in the Consumer Price Index as authorized by City Ordinance. The new rates translate to a \$1.8 million increase over the prior year budgeted water and sewer revenues.

The \$49.0 million 2015 adopted budget for expenses is \$0.3 million or 0.7% below the 2014 adopted budget. This decrease is due primarily to net reductions of \$1.4 million and \$1.8 million in the operating and capital budget, respectively. The reduction in the operating expenses is mainly due to the \$4.9 million reduction associated with function sourcing the utilities operation. The Utility Fund 2015 capital budget of \$5.8 million is \$1.8 million below the 2014 adopted budget. All these and other factors were considered in preparing the City's budget for fiscal year 2015.

City of Pembroke Pines, Florida
Reconciliation of the Statement of Revenues, Expenditures and Changes in
Fund Balances of Governmental Funds to the Statement of Activities
Fiscal Year Ended September 30, 2014

Amounts reported for governmental activities in the statement of activities (page 23) are different because:

Net change in fund balances - total governmental funds (page 26) \$ (3,666,109)

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period.

The details of the difference are as follows:

Capital outlay	\$ 10,495,383	
Depreciation expense	(13,505,875)	
Net adjustment		(3,010,492)

The net effect of various miscellaneous transactions involving capital assets		(249,090)
---	--	-----------

The repayment of the principal of long-term debt consumes the current financial resources of governmental funds, however, it has no effect on net assets.

The details of the difference are as follows:

Debt issued or incurred:

Refunded Taxable Revenue Bonds	(76,840,000)	
Refunded Public Improvement Revenue Bonds	(29,040,000)	

Debt refunded:

Payment to refunded escrow agent	107,375,000	
----------------------------------	-------------	--

Principal payments:

Taxable Revenue Bonds	2,120,000	
General Obligation Bonds	2,055,000	
Capital Improvement Revenue Bonds	605,000	
Public Improvement Revenue Bonds	1,865,000	
Refunded Capital Improvement Revenue Bonds	2,367,100	
Refunded Public Improvement Revenue Bonds	1,175,000	
Capital lease financing	118,065	

Total principal payments	10,305,165	
--------------------------	------------	--

Bond Issue Costs, Bond Discount/Premium and Loss on Refunded Bonds	(3,074,796)	
--	-------------	--

Net adjustment		8,725,369
----------------	--	-----------

Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds:

The details of the difference are as follows:

Compensated absences		255,539
Accrued interest		3,296,610
Net amortization of negative pension obligation		9,963,599
Negative OPEB obligation		1,408,000

Change in net position of governmental activities (page 23)		<u><u>\$ 16,723,426</u></u>

Fiscal Year Ended September 30, 2014

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The City of Pembroke Pines (the City) was incorporated in 1960. The City operates under a Commission-Manager form of government. In addition to police and fire services, general government, recreation, and public works services provided to its residents, the City operates water and sewer utilities and maintains various trust and agency funds in a fiduciary capacity. The City also provides to its residents educational facilities with the eight (8) Charter Schools that it owns and operates in addition to those facilities provided by the School Board of Broward County.

The basic financial statements of the City have been prepared in conformity with accounting principles generally accepted in the United States (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the City's accounting policies are described below.

a. Financial Reporting Entity

The City's financial reporting entity comprises the City of Pembroke Pines as the primary government with no component units. In determining the financial reporting entity, the City complies with the provisions of GASB Statements No.14 (amended by GASB No. 61) and No.39 relating to "The Financial Reporting Entity." The criterion used for including component units consists of identification of legally separate organizations for which the elected officials of the City are financially accountable. This criterion also includes identification of organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete. Under the blended method, component unit balances and transactions are reported in a manner similar to the balances and transactions of the primary government itself.

Blended Component Units

Blended component units are separate legal entities that meet the component unit criteria described above and whose governing body is the same, or substantially the same, as the City Commission or the component unit provides services entirely to the City. Currently, the City has no blended component units.

Discretely Presented Component Units

Discretely presented component units are separate legal entities that meet the component unit criteria described above, but do not meet the criteria for blending. Currently, the City has no discretely presented component units.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

b. Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the non-fiduciary activities of the City. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment, and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds, proprietary funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and the major enterprise fund are reported as separate columns in the fund financial statements. All remaining governmental funds are aggregated and reported as nonmajor funds.

c. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the *economic resources measurement* focus and the *accrual basis of accounting*, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. When the primary eligibility requirement under a grant is incurring an eligible expenditure, the City recognizes revenue at the time the expenditure is incurred. The City considers the availability period of grant revenues susceptible to accrual to be a year.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

c. Measurement Focus, Basis of Accounting and Financial Statement Presentation (continued)

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

Property taxes, franchise fees and communications taxes, licenses and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the City.

The City reports the following major governmental funds:

The *general fund* is the City's primary operating fund, and is always classified as a major fund. It accounts for all financial resources of the City, except those required to be accounted for in another fund.

The *debt service fund* accounts for the accumulation of financial resources for the payment of interest and principal on the general long-term debt of the City. Pledged revenues are used for the debt service payments of principal and interest.

The *capital projects fund* is used to account for resources restricted for the acquisition or construction of specific capital projects or items. The City reports only one Capital Projects Fund, and it is used to account for the acquisition and construction of capital assets from bond proceeds.

The City reports the following nonmajor governmental funds:

The *special revenue funds* accounts for the proceeds of specific revenue sources (other than those for major capital projects) that are restricted legally to expenditures for specified purposes. These include, but are not limited to, various grant funds and the City's Charter School funds.

The City owns and operates eight charter schools: three Elementary Schools, three Middle Schools and one High School are operated under individual charters of the sponsoring Broward County School Board, and one Elementary School is operated by charter granted by Florida State University. These schools are accounted for as special revenue funds of the City. The Charter Schools have a fiscal year of July 1st through June 30th, and are included in the financial statements of the City as of and for the period ended June 30th. The Charter Schools are required to legally adopt budgets in accordance with Section 30.30(F) of the City's Code of Ordinances, and are also required to issue separately audited special purpose financial statements.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

c. Measurement Focus, Basis of Accounting and Financial Statement Presentation (continued)

In previous years, the Charter Schools were aggregated and shown as two separate columns for financial statement purposes; however, each class of school (Elementary, Middle, High, and Florida State University Elementary) is a separate fund for general purpose external financial reporting purposes. Therefore, since fiscal year 2009, each class of school has been disaggregated, and shown as separate columns in the nonmajor governmental funds combining financial statements.

The *permanent fund (Wetland Mitigation Trust Fund)* accounts for resources which are legally restricted to the extent that only the earnings, and not the principal, may be used for purposes that support the City's long-term obligations to maintain its wetlands areas.

The City reports the following major proprietary fund:

The *utility fund* accounts for activities of providing water and wastewater services to the public.

Additionally, the City reports the following fund types:

The *internal service fund* accounts for general liability, workers' compensation and health and life insurance coverage provided to other departments or agencies of the City on a cost reimbursement basis.

The *agency funds* are used to account for assets held by the City in a purely custodial capacity. The reporting entity includes two agency funds. Since agency funds are custodial in nature (i.e., assets equal liabilities), they do not involve the measurement of results of operations. The agency funds are as follows:

<u>Agency Fund</u>	<u>Brief Description</u>
General Agency Fund	Used to account for fiduciary resources held by the City for individuals, private organizations, or other governments.
Sanitation Fund	Used to account for assets held by the City as an agent for private organizations.

The *Pension and Other Post-Employment Benefit (OPEB) trust funds* account for the activities of the General Employees' Pension Plan (GEPP) and the City's Pension Fund for the Firefighters and Police Officers (CPFFPO), which accumulate resources for pension benefits. The OPEB Trust Fund accounts for activities related to the City's retiree health and life insurance benefits.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

c. Measurement Focus, Basis of Accounting and Financial Statement Presentation (continued)

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments-in-lieu of taxes and other charges between the City's water and sewer function and various other functions of the City. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as *program revenues* include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish *operating* revenues and expenses from *non-operating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the City's utility fund and internal service fund are charges for services. Operating expenses for the utility fund and the internal service fund include the cost of sales and services, administrative expenses and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, and then unrestricted resources as they are needed.

d. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance

1. Deposits and Investments

The City's "Pooled cash and cash equivalents" are considered to be cash on hand, demand deposits, money market deposits and deposits held with the State Board of Administration (SBA) Investment Pool and the Florida Municipal Investment Trust (FMIvT) 1-3 Year Bond Fund. For the purpose of the proprietary fund's Statement of Cash Flows, "Pooled cash and cash equivalents" include all demand and savings accounts, money market accounts, short-term investments with original maturities of three months or less from the date of acquisition and the FMIvT 1-3 Year Bond Fund.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

d. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance (continued)

Deposits and Investments (continued)

All investments of the City, except the SBA Investment Pool, the FMIVT and the investment in real estate, are reported at fair value, which is based on quoted market price. The SBA Investment Pool and the FMIVT is recorded at its value of the pool shares (2A-7 Pool), which is fair value, and the investment in real estate is valued at cost. Additional deposits and investment disclosures are presented in Note 3.

2. Interfund Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either “interfund receivables/ payables” (i.e., the current portion of interfund loans) or “advances to/from other funds” (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as “due to/from other funds”. Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as “internal balances”.

Advances between funds, as reported in the fund financial statements, are offset by assigned fund balance in applicable governmental funds to indicate that they are not available for appropriation and are not expendable available financial resources.

3. Receivables

In the government-wide statements, receivables consist of all revenues earned at year-end and not yet received. Allowances for uncollectible receivables are based upon historical trends and the periodic aging of receivables. Major receivable balances for the governmental activities include franchise fees and utility taxes, and amounts due from other governments. Business-type activities report utility billings as the major receivable.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

d. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance (continued)

4. Capital Assets

Capital assets, which include property, plant and equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items) are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the City as assets with an estimated useful life in excess of one year and an initial, individual cost of \$1,000 or more. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

All infrastructure assets acquired after July 1, 1980 are reported in the government-wide financial statements at estimated historical cost provided by the City's engineering division.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase for capital assets of business-type activities is included as part of the capitalized value of the assets constructed.

In June 2007, the GASB issued Statement No. 51 ("GASB 51"), "Accounting and Financial Reporting for Intangible Assets." This Statement requires intangible assets such as software development to be recorded as capital assets. The City implemented GASB 51 effective October 1, 2009. As a result, the financial impact to the City was a net increase of \$0.6 million in capital assets for software developed in-house (See Note 6 – Capital Assets). The City's capitalization threshold for infrastructure and intangible assets is \$1,000. Intangible assets that are considered to have an indefinite useful life because there is no legal, contractual, regulatory, technological, or other factor that limits the useful life are not amortized. As used in these statements, accumulated depreciation includes amortization of intangibles assets.

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

<u>Assets</u>	Useful Lives (Years)
	<u>Estimated</u>
Buildings	20-50
Improvements other than buildings	5-50
Machinery and equipment	3-10
Infrastructure	10-50
Intangibles	10

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

d. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance (continued)

5. Inventories and Prepaid Items

Inventories of governmental funds, which consist of expendable supplies held for consumption, are recorded as expenditures when consumed rather than when purchased, (consumption method). The inventories of supplies, diesel fuel and gasoline are recorded at cost using the moving average method.

Certain payments to vendors reflect costs applicable to future accounting periods, and are recorded as prepaid items in both government-wide and fund financial statements. The cost of prepaid items is recorded as an expenditure/expenses when consumed rather than when purchased (consumption method).

6. Restricted Assets

Restricted assets include cash and investments of the governmental and enterprise funds that are legally restricted as to their use. The primary restricted assets of the governmental funds are related to amounts that the City is required to segregate in connection with the issuance of bonds, including sinking fund and reserve requirements, as well as amounts segregated for construction projects. The primary restricted assets of the enterprise fund are related to the Consolidated Utility System Revenue Bonds, Series 2010, and the customer utility deposits. See Note 5. for more details on the restricted assets.

7. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position reports a separate section for deferred outflow of resources. This separate financial statement element, deferred outflow of resources, represents a consumption of net position that applies to future periods and so will not be recognized as an outflow of resources (expense/expenditure) until then. There are two items that qualify for reporting in this category; interest rate swaps and deferred charge on refundings, both of which are reported in the government-wide statement of net position. The interest rate swaps represents the termination value balance of the outstanding derivative instruments and the deferred charge on refundings represents the difference in the carrying value of refunded debt and the reacquisition price, which is deferred and amortized over the shorter of the life of the refunded or refunding debt.

In addition to liabilities, the statement of financial position reports a separate section for deferred inflow of resources. This separate financial statement element, deferred inflow of resources, represents an acquisition of net position that applies to future periods and so will not be recognized as an inflow of resources (revenues) until that time. There is only one item that qualifies for reporting in this category; interest rate swaps. The interest rate swaps represents the fair value balance of the outstanding derivative instruments.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

d. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance (continued)

8. Long-Term Obligations

In the government-wide financial statements and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities or proprietary fund type statement of net position. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as unamortized bond issue costs and amortized over the term of the related debt. Effective October 1, 2013, only bond premiums, discounts and prepaid insurance costs are deferred and amortized over the life of the bonds, all other bond issue costs are expensed in the reporting period in which they are incurred. A prior adjustment entry has been made to reflect this change. See Note 15. for details on this prior period adjustment.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

9. Net position/Fund Balance

Net Position. Net position in government-wide and proprietary fund financial statements are classified as net investment in capital assets; restricted, and unrestricted. Restricted net position represent constraints on resources that are either externally imposed by creditors, grantors, contributors, or laws or regulations of other governments or imposed by law through State statute.

Fund Balance. In the fund financial statements, governmental funds report fund classifications that comprise a hierarchy based primarily on the extent to which the City is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. Amounts that are restricted to specific purposes either by a) constraints placed on the use of resources by creditors, grantors, contributors, or laws or regulations of other governments or b) imposed by law through constitutional provisions or enabling legislation are classified as restricted fund balances. Amounts that can only be used for specific purposes pursuant to constraints imposed by the City Commission through an ordinance are classified as committed fund balances. Amounts that are constrained by the City's intent to be used for specific purposes but are neither restricted nor committed are classified as assigned fund balances.

Notes to Basic Financial Statements

Fiscal Year Ended September 30, 2014

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

d. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance (continued)

Assignments are made by the City Manager based on Commission direction. Commitments and assignments of fund balance have been established by the City Commission pursuant to a fund balance reserve policy adopted per Ordinance 1699 on September 7, 2011. Nonspendable fund balances include amounts that cannot be spent because they are either (a) not spendable in form or (b) legally or contractually required to be maintained intact. Unassigned fund balance represents fund balance that has not been assigned to other funds and that has not been restricted, committed, or assigned to specific purposes within the general fund.

10. Fund Balance Reserve Policy

On September 7, 2011, the City of Pembroke Pines adopted a fund balance reserve policy per Ordinance 1699. This fund balance reserve policy excludes the special revenue funds of the City, including, but not limited to, the Charter Schools, and states that the unassigned fund balance of the City's General Fund shall not be less than 10% of the following year's projected budgeted expenditures.

In any fiscal year where the City is unable to maintain the 10% minimum reservation of fund balance, the unassigned fund balance is to be rebuilt through an appropriation during the next annual budget process of at least 20% of the shortfall in the unassigned fund balance until the minimum level of 10% has been reached.

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, the City considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the City considers amounts to have been spent, first out of committed funds, then assigned funds, and finally unassigned funds, as needed, unless the City has provided otherwise in its commitment or assignment actions.

e. Revenues, Expenditures/Expenses

1. Property Taxes

Under State law, municipalities are able to levy up to 10 mills (\$1 per \$1,000 of taxable value) for operating purposes. In addition, they are permitted to levy additional millage for general obligation debt service purposes, provided a referendum to that effect is approved by the voters. Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied annually on November 1 and are due by March 31. Uncollected Ad Valorem taxes as of May 31 are sold as Tax Certificates to investors. The Broward County Revenue Collector bills and collects the property taxes and remits to the City its portion. Due to the immaterial amount of any additional property taxes receivable after the 60-day period, no additional accrual is made in the government-wide financial statements, or in the fund financial statements.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

e. Revenues, Expenditures/Expenses (continued)

2. Compensated Absences

Compensated absences are salary related payments to employees for accumulated vacation and sick leave. They are recorded as expenditures when used or are accrued as a payable to employees who are entitled to cash payment in lieu of taking leave. Employees may accumulate unused sick and vacation leave with limitations as described in the various collective bargaining agreements for police officers, firefighters, general, charter school and Early Development Center employees. The City's policy regarding vacation time is to encourage employees to use it within one year of having earned the leave.

The liability for these compensated absences is recorded as long-term debt in the government-wide financial statements. The current portion of this debt is estimated based on historical trends. In the fund financial statements, governmental funds report only the compensated absence liability due and payable at September 30th and paid from expendable available financial resources, while the proprietary funds report the liability as it is incurred.

f. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts of assets, liabilities, disclosure of contingent liabilities, revenues, and expenditures/expenses reported in the financial statements and accompanying notes. These estimates include assessing the collectability of receivables, the realization of pension obligations and the useful lives of capital assets. Although those estimates are based on management's knowledge of current events and actions it may undertake in the future, they may ultimately differ from actual results.

NOTE 2. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

By its nature as a local government unit, the City is subject to various federal, state, and local laws and contractual regulations. The City has no material violations of finance-related legal and contractual obligations.

a. Fund Accounting Requirements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related requirements, bond covenants, and segregation for management purposes.

b. Revenue Restrictions

The City has various restrictions placed over certain revenue sources from federal, state, or local requirements. The primary restricted revenue sources include:

<u>Revenue Source</u>	<u>Legal Restrictions of Use</u>
Gas Tax	Roads, bridges, sidewalks, and streetlights
School Board of Broward County	Charter School Expenditures
Florida State University	Charter School Expenditures
Older Americans Act Grant	Grant Program Expenditures
Community Development Block Grant (CDBG)	Grant Program Expenditures
State Housing Initiative Program Grant (SHIP)	Grant Program Expenditures
Confiscated Law Enforcement Trust Funds – (Treasury Confiscated, Justice Confiscated, \$2 Police Education, and FDLE Confiscated)	Law Enforcement Expenditures

For the year ended September 30, 2014, the City complied, in all material respects, with these revenue restrictions.

NOTE 2. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY (continued)

c. New Pronouncements

Pronouncements implemented in the current year:

GASB Statement 65, Items Previously Reported as Assets and Liabilities (GASB 65) establishes accounting and financial reporting standards that reclassify, as deferred outflows of resources or deferred inflows of resources, certain items that were previously reported as assets and liabilities and recognizes, as outflows of resources or inflows of resources, certain items that were previously reported as assets and liabilities. The requirement of GASB 65 is effective for fiscal year 2014. The implementation of GASB 65 has a material impact on the City's financial statements requiring a prior period adjustment. See Note 15. for details.

GASB Statement 66, Technical Corrections—2012 is an amendment of GASB Statements No. 10 and No. 62 (GASB 66). The objective of this Statement is to improve accounting and financial reporting for a governmental financial reporting entity by resolving conflicting guidance that resulted from the issuance of two pronouncements, Statements No. 54, Fund Balance Reporting and Governmental Fund Type Definitions, and No. 62, Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements. The requirement of GASB 66 is effective for fiscal year 2014. The implementation of GASB 66 does not have a material impact on the City's financial statements.

GASB Statement 67, Financial Reporting for Pension Plans is an amendment of GASB Statement No. 25 (GASB 67). The objective of this Statement is to improve financial reporting by state and local governmental pension plans. This Statement results from a comprehensive review of the effectiveness of existing standards of accounting and financial reporting for pensions with regard to providing decision-useful information, supporting assessments of accountability and interperiod equity, and creating additional transparency. The requirements of GASB 67 are effective for fiscal year 2014. The implementation of GASB 67 does not have a material impact on the City's financial statements, however certain changes in note disclosures and Required Supplementary Information (RSI) were incorporated to comply with GASB Statement 67.

GASB Statement 70, Accounting and Financial Reporting for Nonexchange Financial Guarantees (GASB 70) establishes accounting and financial reporting standards for situations where a state or local government, as a guarantor, agrees to indemnify a third-party obligation holder under specified conditions (i.e., nonexchange financial guarantees). The issuer of the guaranteed obligation can be a legally separate entity or individual, including a blended or discretely presented component unit. Guidance is provided for situations where a state or local government extends or receives a nonexchange financial guarantee. The requirement of GASB 70 is effective for fiscal year 2014. The implementation of GASB 70 does not have a material impact on the City's financial statements.

NOTE 2. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY (continued)

c. New Pronouncements (continued)

Pronouncements yet to be implemented:

GASB Statement 68, Accounting and Financial Reporting for Pensions is an amendment of GASB Statement No. 27 (GASB 68). The primary objective of this Statement is to improve accounting and financial reporting by state and local governments for pensions. It also improves information provided by state and local governmental employers about financial support for pensions that is provided by other entities. The requirements of GASB 68 are effective for fiscal year 2015. The City is currently evaluating the impact, if any, that GASB 68 may have on its financial statements.

GASB Statement 69, Government Combinations and Disposals of Government Operations (GASB 69) provides specific accounting and financial reporting guidance for combinations in the governmental environment. It also improves the decision usefulness of financial reporting by requiring that disclosures be made by governments about combination arrangements in which they engage and for disposals of government operations. The requirements of GASB 69 are effective for fiscal year 2015. The City is currently evaluating the impact, if any, that GASB 69 may have on its financial statements.

GASB Statement 71, Pension Transition for Contribution Made Subsequent to the Measurement Date is an amendment of GASB Statement No. 68 (GASB 68). The objective of this Statement is to address an issue regarding application of the transition provisions of Statement No. 68, Accounting and Financial Reporting for Pensions. The issue relates to amounts associated with contributions, if any, made by a state or local government employer or nonemployer contributing entity to a defined benefit pension plan after the measurement date of the government's beginning net pension liability. The requirements of GASB 71 are effective for fiscal year 2015. The City is currently evaluating the impact, if any, that GASB 71 may have on its financial statements.

General Investment Policy Guidelines

The City's investment objective order of priority is safety of capital, liquidity of funds, and investment income, in that order. Authorized investments of the City are subject to limitations prescribed in the City of Pembroke Pines' Investment Policy as adopted per Ordinance 1493, dated September 1, 2004. The average duration of the entire portfolio as a whole may not exceed five (5) years. This calculation excludes maturities of the underlying securities of a repurchase agreement. This calculation also applies to the expected average life of asset-backed securities and mortgage-backed securities (rather than the stated final maturity). No more than 30% of the total investment portfolio shall be placed in securities with an expected duration of more than five (5) years. This calculation excludes maturities of the underlying securities of a repurchase agreement. Authorized Investments per the Investment Policy are as follows:

LIST OF AUTHORIZED INVESTMENTS:

- (a) The Local Government Surplus Funds Trust Fund and any other investment plan or investment trust developed by the Florida League of Cities, the Florida Association of Counties, the Florida Association of Court Clerks, or similar state or national associations, approved by the City.
- (b) Negotiable direct obligations of, or obligations the principal and interest of which are unconditionally guaranteed by the United States Government or its agencies, including but not limited to, U.S. Government Treasury Securities, and Government National Mortgage Associations (GNMAs).
- (c) Non-negotiable interest-bearing time certificates of deposits or savings accounts in state or federal banks, state or federal savings and loan associations as permitted and/or prescribed by Chapter 280 of the Florida Statutes.
- (d) Government Sponsored Enterprises including but not limited to Federal Farm Credit Banks, Federal Home Loan Bank or its district banks, Federal National Mortgage Association, Federal Home Loan Mortgage Corporation, and Student Loan Marketing Association.
- (e) Prime commercial paper. Commercial Paper having a maturity of 90 days or less shall require one of the following three minimum ratings: A-1, P-1 or F-1, or better as rated by Standard & Poors, Moody's, and/or Fitch Investors Service rating services. Prime commercial paper of U.S. Corporations having a maturity in excess of 90 days shall require two of the three above-mentioned ratings.
- (f) Repurchase agreements comprised of only those investment instruments as otherwise authorized herein.
- (g) State or local government taxable and tax exempt debt, general obligation and/or revenue bonds rated at least "A3" by Moody's or "A-" by Standard & Poor's for long-term debt or rated at least MIG-2 by Moody's or SP-2 Standard & Poor's for short-term debt.

NOTE 3. DEPOSITS & INVESTMENTS (continued)

List of Authorized Investments (continued)

(h) Securities or, other interests in, any open-end or closed-end management type investment company or investment trust registered under the Investment Company Act of 1940, provided the portfolio meets the City's investment policy.

(i) Securities and Exchange Commission registered money market funds with the highest credit quality rating from a nationally recognized rating agency. The funds must be in compliance with Title 17, Part 270, Section 2a-7 of the Federal Code of Regulations (Appendix B).

(j) U.S dollar denominated debt obligations of domestic or foreign corporations, or foreign sovereignties issued in the U.S. or in foreign markets having two of the following three minimum ratings: A-, A3, or A-, as rated by Standard and Poor's, and/or Moody's, and/or Fitch Investors Service rating services. However, if such obligations are rated by only one rating service, then such rating shall be at least AA-, Aa3, or AA- by Standard & Poor's, or Moody's or Fitch.

(k) Real estate, so long as the acquisition and sale complies with applicable federal and state laws and regulations in addition to applicable City Charter provisions, if any, and the City Code of Ordinances.

(l) Real Estate Investment Trusts ("REIT") which are properly registered pursuant to applicable Federal and State laws, provided the ("REIT") portfolio meets the City's Investment Policy.

(m) Land Trusts or Title Trusts as described in Sections 689.07 or 689.071, Florida Statutes, so long as the Land Trust complies with any applicable Federal and State laws and regulations, applicable City Charter provisions, if any, and the City's Code of Ordinances.

(n) Mortgage-Backed Securities. Securities collateralized by mortgages on residential property or commercial (industrial, office, retail etc.) property ("commercial Mortgage-Backed Securities"). The securities may be issued by a Federal Instrumentality or by a private corporation and may be structured as collateralized mortgage obligations or unstructured pass-through securities.

(o) Asset-Backed Securities. Securities collateralized by pools of assets (credit cards, autos, home equity loans). The securities may be structured or unstructured pass-through securities.

Public Deposits

At September 30, 2014, the book balance of the City's public deposits was \$16,121,591 and the bank balance was \$16,933,928. The institutions in which the City's monies are deposited are certified as Qualified Public Depositories pursuant to Florida Statutes, Chapter 280 - *Florida Security for Public Deposits Act*. Therefore, the City's total bank balances on deposit are entirely insured or collateralized by the Federal Depository Insurance Corporation and the Bureau of Collateral Securities, Division of Treasury, State Department of Insurance. When public deposits are made in accordance with Chapter 280, no public depositor shall be liable for any loss thereof. It is the City's practice to ensure that all its public deposits are maintained with a qualified depository. The Investment Policy allows for a maximum of 50% of the portfolio may be deposited with any one financial institution.

Investments in External Investments Pools

State Board of Administration (SBA)

The State Board of Administration's Local Government Surplus Funds Trust Fund currently known as the Florida PRIME is governed by Chapter 19-7 of the Florida Administrative Code, which identifies the Rules of the State Board of Administration (SBA). These rules provide guidance and establish the general operating procedures for the administration of the Florida PRIME. Additionally, the Office of the Florida Auditor General performs the operational audit of the activities and investments of the State Board of Administration.

On November 29, 2007, the State Board of Administration implemented a temporary freeze on the assets held in the Pool due to an unprecedented amount of withdrawals from the Fund coupled with the absence of market liquidity for certain securities within the Pool. On December 4, 2007, based on recommendations from an outside financial advisor, the State Board of Administration restructured the Pool into two separate pools. Pool A, currently referred to as the Florida PRIME, consisted of all money market appropriate assets, which was approximately \$12.0 billion or 86% of Pool assets. Pool B, currently referred to as Fund B Surplus Trust Fund (Fund B), consisted of assets that either defaulted on a payment, paid more slowly than expected, and/or had any significant credit and liquidity risk, which was approximately \$2.0 billion or 14% of Pool assets.

On August 3, 2009 the SBA announced the rebranding of the Local Government Surplus Funds Trust Fund (formerly Pool A) as the "Florida PRIME," reflecting the improvements and added benefits for participants that had been developed. The Florida PRIME is considered a SEC 2a-7-like fund, therefore, account balances are considered to be the fair value of the investment. On November 3, 2014, Fund B balances have been distributed in full to each Fund B participant, and the weighted average life of the fund's assets is effectively zero.

Florida Municipal Investment Trust (FMIVT)

The Florida Municipal Investment Trust (FMIVT) was created under the laws of the State of Florida to provide eligible units of local governments with an investment vehicle to pool their surplus funds and to reinvest such funds in one or more investment portfolios under the direction and daily supervision of an investment advisor.

The Florida League of Cities (FLOC) serves as the administrator, investment manager and secretary-treasurer of the Trust. The State Board of Administration's Local Government Surplus Funds Trust Fund and the Florida Municipal Investment Trust (FMIVT) are not registrants with the Securities and Exchange Commission (SEC); however, the funds have adopted operating procedures consistent with the requirements for a 2a-7 Fund. The City invests operating funds in the following funds:

Investment in Real Estate

City Center Property

In fiscal year 2003, the City purchased approximately 115 acres of undeveloped land adjacent to City Hall for approximately \$22 million using funds from the Utility Fund. The City's investment in real estate, also referred to as the "City Center" project, had an additional \$46.3 million spending for spine roads, infrastructure and hardscape development. In 2003, the City transferred the investment in real estate from Utility Fund to the General fund creating an interfund loan between the two funds. As part of this transaction, the Utility Fund charged borrowing interest to the General Fund.

In fiscal year 2011, the City transferred the investment in real estate back to the Utility Fund and since the Utility Fund cannot charge interest to itself, the interest portion of the cost was written off and was charged against interest income during the year. To compensate this write down, the General Fund transferred approximately \$7.8 million to the Utility Fund in fiscal year 2011.

In fiscal 2012, the City sold a parcel to Mill Creek Development for \$11,218,336 and recognized a gain on sale of \$1,213,349. Also, during the fiscal year 2012, the Utility Fund transferred \$3,460,118 of storm-water infrastructure to the Road and Bridge Fund.

In fiscal year 2013, the City sold a second parcel of City Center to Mill Creek Development for \$7,474,106 and recognized a gain on sale of \$1,179,450.

In fiscal year 2014, the City sold 11 acres of City Center to RD Pembroke Apartments, LLC for \$9,499,725 and recognized a gain on sale of \$2,854,464.

At the fiscal year ended September 30, 2014, the investment in real estate for City Center is valued at \$32,821,997.

Weekley Property

In fiscal year 2013, the City bought 43.4 acres of land from Weekley Bros for \$10,050,042. Out of this amount, \$9,050,042 is in the form of a promissory note that is due upon the earlier of (a) the resale of the property or (b) one year from the date of the promissory note contingent upon that the road construction on the property is completed within the year. On August 12, 2014, the City paid the note plus \$630,404 of interest in full. At the fiscal year ended September 30, 2014, the investment in real estate is valued at \$10,770,750.

Broward County Correctional Institute

In fiscal year 2014, the City bought approximately 66 acres located at 20421 SW 72nd Street, formerly known as the Broward County Correctional Institute, for \$13,519,470. At the fiscal year ended September 30, 2014, the investment in real estate is valued at \$13,995,871.

NOTE 3. DEPOSITS AND INVESTMENTS (continued)

Interest Rate Risk (continued)

Governmental and Business-type/ Operating Investments

The City limits its exposure to fair value losses arising from increasing interest rates by limiting the effective duration of the investment portfolio. The Operating Investment Policy of the City states that the average effective duration of the portfolio as a whole may not exceed five (5) years, and that no more than 30% of the total investment in debt securities shall be placed in securities with an expected duration of more than five (5) years. This calculation excludes the maturities of the underlying securities of a repurchase agreement. The Operating Investment Policy of the City limits the investment in collateralized mortgage obligations to a maximum of 30% of the portfolio. The maximum effective duration for an investment in any mortgage-backed security issued by a Federal Instrumentality is ten (10) years, and for a private corporation is five (5) years. A maximum of 50% of the City's operating investments may be directly invested in the combined categories of commercial paper and corporate obligations. The maximum duration for corporate obligations is five (5) years for both fixed and variable rate securities. The weighted average days to maturity and the weighted average life of the Florida PRIME as of September 30, 2014 are 39.3 days and 86.9 days, respectively.

Firefighters and Police Officers Pension Investments

The investment portfolio of the Firefighters and Police Officers pension fund are managed by a separate Board of Trustees, which have established an Operating Investment Policy, and detailed guidelines to manage the risk, diversification, maturity and liquidity requirements of the Fund. As a means of limiting its exposure to interest rate risk, the Firefighters and Police Officers Pension Plan diversifies its investments by security type and institution, and limits holdings in any one type of investment with any one issuer with various durations of maturities.

General Employees Pension Investments

The General Employees Pension Investment Policy allows for various authorized investments including all the separate accounts offered by the Principal Financial Group. In the event that the Principal Financial Group deems it necessary to offer or discontinue any separate account(s), the City Administration is authorized to execute the necessary documents to implement the change. Currently, all the investments of the General Employees Pension Fund are invested in the separate accounts of the Principal Financial Group which operate like a mutual fund, since the investments are not evidenced by securities that exist in physical or book entry form. The General Employees Pension Investment Policy does not limit the amount of fixed income securities of the portfolio. The weighted expected average maturity of US government and agency securities shall not exceed 10 years, and the weighted expected average maturity of corporate bonds shall not exceed 10 years.

Other Post-Employment Benefits (OPEB) Investments

The OPEB Investment Policy allows for various authorized investments including all the investment accounts offered by the Fiduciary Trust International of the South and State Street Global Advisors. Currently, the investments of the OPEB Trust Fund are invested in fixed income, equities, and mutual funds. The OPEB Investment Policy does not limit the amount of fixed income securities of the portfolio. The weighted expected average maturity of US government and agency securities shall not exceed 10 years, and the weighted expected average maturity of corporate bonds shall not exceed 10 years.

NOTE 3. DEPOSITS AND INVESTMENTS (continued)

Credit Risk (continued)

Governmental and Business-type/ Operating Investments

Credit risk is the risk that a security or a portfolio will lose some or all of its value due to a real or perceived change in the ability of the issuer to repay its debt. This risk is generally measured by the assignment of a rating by a nationally recognized statistical rating organization. The City of Pembroke Pines utilizes portfolio diversification and credit quality rating in order to control this risk.

The Operating Investment Policy of the City does not specify a credit quality rating for its mortgage-backed securities. However, the City currently uses the rating established for corporate bonds. Currently, the mortgage pass-throughs, Federal Agencies (AGY), and the commercial mortgage-backed securities (CMBS) are rated “AAA” by Standard and Poor’s. The Operating Investment Policy limits the exposure of mortgage-backed securities to a maximum of 30% of the portfolio.

The Operating Investment Policy stipulates that corporate bonds must have two (2) of the following three minimum ratings: BBB, Baa2, or BBB, as rated by Standard and Poor’s, and/or Moody’s, and/or Fitch Investor Service rating services, respectively. However, if such obligations are rated by one rating service, then such rating shall be at least A-, A3, or A- by Standard and Poor’s, Moody’s or Fitch, respectively. The City’s operating investments in corporate bonds were rated A by Standard and Poor’s and A2 by Moody’s, respectively, and investments in corporate bonds – Non US were rated AA- by Standard and Poor’s and Aa3 by Moody’s, respectively.

The Florida PRIME is currently rated AAAm by Standard and Poor’s.

Firefighters and Police Officers Pension Investments

Credit risk is the risk that a security will lose some or all its value due to a real or perceived change in the ability of the issuer to repay its debt. The Firefighters and Police Officers Pension Plan uses portfolio diversification in order to control this risk. The Firefighters and Police Officers Pension Investment Policy stipulates that fixed investments must have a minimum credit quality of “A” or equivalent as rated by one or more recognized bond rating services at the time of purchase. Fixed income investments that are downgraded below “BAA” shall be liquidated within a reasonable time as determined by the Investment Manager, but not to the detriment of the Firefighters and Police Officers Pension Plan. If the Investment Manager determines it is prudent to hold an investment that has been downgraded below BAA, they will be required to report to the Board on the status of the bonds and the reason for holding the downgraded bond.

NOTE 3. DEPOSITS AND INVESTMENTS (continued)

Credit Risk (continued)

General Employees Pension Investments

The General Employees Pension Investment Policy sets no minimum credit quality rating for the insurance company separate accounts of the Principal Financial Group. The separate accounts are commingled pools, rather than individual securities and, therefore, these accounts are not rated.

Other Post-Employment Benefits (OPEB) Investments

The OPEB Investment Policy sets no minimum credit quality rating for the investment accounts of the Fiduciary Trust International of the South and State Street Global Advisors. The investment accounts comprise of fixed income, equity, commingled pools, and mutual funds. The fixed income portfolio's ratings from Fitch, Standard and Poor's, and Moody's range from A- to AAA, A to AA+, and Aaa to A3, respectively.

Concentration of Credit Risk

Concentration risk exists when investments are concentrated in one issuer. Investments issued or explicitly guaranteed by the U.S. government and investments in mutual funds, external investment pools and other pooled investment are excluded from the concentration of credit risk disclosure requirements.

The City of Pembroke Pines' Operating Investment Policy does not allow for an investment in any one issuer that is in excess of five percent (5%) of the City's total investments. This limitation also applies to the Firefighters and Police Officers Pension Plan. The General Employees Pension Plan is not subject to concentration of credit risk, custodial credit risk or foreign currency risk, as the investments of Plan operate like mutual funds, and are not evidenced by securities that exist in physical or book entry form.

Custodial Credit Risk - Deposits

Deposits are exposed to custodial credit risk if they are not covered by depository insurance and they are uncollateralized, collateralized with securities held by the pledging financial institution, or collateralized with securities held by the pledging financial institution's trust department or agent, but not in the City's name.

All deposits of the City are either covered by depository insurance or are collateralized by the pledging financial institution's trust department or agent in the City's name.

Credit Risk (continued)

Custodial Credit Risk - Investments

Investment securities are exposed to custodial credit risk if they are uninsured and are not registered in the name of the government and are held by either the counterparty or by the counterparty's trust department or agent but not in the government's name. It is the City's policy that all investments purchased by the City be designated as an asset of the City in the City's name, despite being held in safekeeping by the City's custodial bank or a third party custodial institution, chartered by the United States Government or the State of Florida. Therefore, consistent with policy, all identifiable investment securities of the City are either insured or are registered in the Custodian's Street name for the benefit of the City, and are held by the counterparty's trust department or agent. Investments in mutual funds and external investment pools are not subject to custodial credit risk.

NOTE 8. LEASES

Operating Leases

The City is the lessor in operating leases on various buildings as described below. Depreciation expense on these leased assets for the year ended September 30, 2014 amounted to \$1,912,900. Cost and carrying amounts of these leased assets as of September 30, 2014 were as follows:

Land	\$ 1,068,835
Buildings	<u>95,772,696</u>
Total Cost	96,841,531
Less: Accumulated Depreciation	<u>(19,911,489)</u>
Book Value as of 9/30/14	<u>\$ 76,930,042</u>

The City leases 650 square feet to the Miramar-Pembroke Pines Regional Chamber of Commerce. The City also leases 5,163 square feet to Calvin, Giordano & Associates, Inc. for their Building Department operations. In the "Silver Emporium" Senior Citizen Multipurpose Center, the City leases 5,000 square feet to the Pines Care Medical Center. The City also leases an office to a podiatrist and the dining/gift shop area to a restaurant at the Multipurpose Center. These leases vary from 1 to 5 years and are included in the table below. The 11,950 square foot restaurant "Club 19" at the City's Golf & Racquet Club is also leased out to an operator. As of September 30, 2014, Club 19 leased facilities consisted of \$72,700 in land and \$212,077 in buildings for a total cost of \$284,777. The accumulated depreciation and the net book value of the property as of September 30, 2014 are \$124,675 and \$160,102, respectively. Depreciation expense for the year was \$4,242. Additional office space at City Hall is provided at no cost to several Federal and local elected officials who represent portions of the City.

The City also leases small parcels of property to various telecommunications service providers in order to construct, maintain and operate telecommunications facilities. The annual leases vary from 5 to 15 years with rental charges ranging between \$4,032 and \$61,408 per year. Annual rentals increase at rates from 3% to 5% per year. In addition to the annual rent, and subject to prior approval, the City shall receive 50% of any amounts received from any third-party source for co-location for the construction or use of telecommunication towers. The City received a total of \$1,418,374 from the tower rentals in the year ended September 30, 2014.

On June 11, 1986, the City leased 30 acres of the Walter C. Young Resource Center site to the School Board of Broward County for the purpose of their constructing and operating a Community Education Facility. The terms call for a rental of \$1.00 per year for 50 years. At the termination of the lease, all improvements made on the site by the School Board of Broward County will become the property of the City.

NOTE 8. LEASES (continued)

Operating Leases (continued)

On December 3, 1996, the City leased two acres of the Walter C. Young Resource Center site adjacent to the Walter C. Young Middle School to the School Board of Broward County and to Broward County, jointly, for the purpose of their constructing a Library facility on the site. The terms call for a rental of \$1.00 per year for 30 years, plus a 20-year option to renew. At the termination of the lease, all improvements made on the site by the School Board of Broward County and by Broward County will become the property of the City.

On April 20, 1998, the City entered into a Ground Lease Agreement with Children's Harbor, Inc., a Florida Non-Profit Organization, whereby the Organization will design, develop, construct and operate a Children's Development Center with residential and educational facilities on 7.4 acres in western Pembroke Pines to provide family type homes for abused and neglected children. The lease is for 30 years at \$1.00 per year with two ten-year renewal periods upon mutual consent. The leased facilities include land valued at \$500,000, and buildings costing \$1,780,834 with a total cost of \$2,280,834. Accumulated depreciation and the net book value of the facilities as of September 30, 2014 amounted to \$844,234 and \$1,436,600, respectively. Depreciation expense for the year was \$28,382.

On June 23, 1999, the City leased a site at the Pembroke Pines Academic Village to Broward College for the construction of the 26,000 square foot Southwest Broward County Center of Broward College. The terms call for a rental of \$1.00 per year for 40 years plus two additional 25-year options to renew. At the termination of the lease, all improvements made on the site by the Broward College will become the property of the City.

On March 15, 2001, the City subleased the 157-acre site of the former South Florida State Hospital from the Florida Department of Children & Families for a 50-year period beginning July 1, 2001 (See Note 12. Commitments). As of September 30, 2014, the City had sub-subleased portions of the site, now known as the "Senator Howard C. Forman Human Services Campus", to Youth Services International, Citrus Health Network, Dept. of Children & Families, Safeguard Services, Elan Lawn Services, Image Lawn Maintenance and several other lessees at various rentals and terms. The City also provides office space, furniture and services on the site at no cost to the Transportation Authority, Inc., a contractor utilized to provide all transportation services required for the City-operated Charter Schools, as well as to Chartwells, a Division of Compass Group USA, Inc. who is the contractor providing student meals to the Charter Schools. The City received a total of \$727,447 from the rental of buildings on the Campus for the year ended September 30, 2014.

On March 13, 2002, the City signed an agreement with Florida International University (FIU), for use of educational facilities located at the Academic Village. The Academic Village is a shared-use facility located on the northeast corner of Sheridan Street and Northwest 172nd Avenue, and includes the City's Charter High School, the Broward County Southwest Regional Library, the Southwest Broward County Campus for Broward College, and the *Susan B. Katz Memorial Auditorium*, a 450-seat shared auditorium.

NOTE 8. LEASES (continued)

Operating Leases (continued)

In order to provide for the operation of an integrated educational program, and to offset the costs incurred by the City, the agreement requires FIU to pay to the City an annual rent starting at \$400,000, which increases by an additional \$200,000 for the next two years and an additional \$50,000 in the fourth year. Thereafter, the annual rent will be adjusted by a minimum of 50% of the increase or decrease in the Consumer Price Index (CPI) for Miami, Florida. The lease was amended on December 13, 2011 to renew the contract for a term of 18 months starting on January 1, 2013 and ending on June 30, 2014, at which time the lease will not be renewed. On May 7, 2014, the City Commission approved a second amendment to extend the lease period to August 9, 2014 for a payment of \$95,293.

The rental income of \$1,043,184 received in the Charter Schools' fiscal year ended June 30, 2014 was recorded in the City's Charter High School financial statements, and future rentals are included in the table below. The cost of the shared-use facility is \$13,599,845, and accumulated depreciation and net book value as of September 30, 2014 amounted to \$2,833,301 and \$10,766,544, respectively. Depreciation expense for the year was \$283,330. In the Charter Schools' fiscal year 2014-15, the High School Charter was expanded to include a new middle school at the Academic Village which replaced the previous lease with FIU.

On November 23, 2004, the City signed a Sub-Sublease Agreement with Susan B. Anthony Center, Inc. (SBA), a Florida Non-Profit Organization that provides transitional housing for women with children whom are recovering from substance abuse. The City leases to SBA a 5.2-acre site in the Senator Howard C. Forman Human Services Campus, and constructed buildings providing a residential complex, an administrative and treatment facility and an Early Learning Center plus land and off-site improvements. The City financed this construction using the proceeds from the issuance of \$7,910,000 in Variable Rate Capital Improvement Revenue Bonds maturing on October 1, 2034. (See Note 9. "Long-Term Debt"). SBA pays rent to the City in order to reimburse the City for its ongoing fiscal and debt service expenditures incurred in financing the project. The project received its Certificate of Occupancy on February 2, 2006 and rentals due to the City are included in the table below from that date onward. The City received \$311,435 for the year ended September 30, 2014. The cost of the Center is \$7,035,387, and accumulated depreciation and net book value as of September 30, 2014 amounted to \$1,219,467 and \$5,815,920, respectively. Depreciation expense for the year was \$140,708.

The City receives various short-term rentals from religious and civic groups and other organizations utilizing the Charter Schools' classrooms on weekends, and other available City sites, including the Walter C. Young Resource Center. Apartments at the two Senior Housing sites are rented on leases not exceeding one year. During the year ended September 30, 2014, the City received rental income of \$1,789,198 from the two Senior Housing Facilities located in the Southwest Focal Point Senior Center known as "Pines Point", and \$5,225,744 from the three Senior Housing Facilities located in the Senator Howard C. Forman Human Services Campus known as "Pines Place". Pines Point land cost is \$496,135 and its building costs are \$17,366,392.

NOTE 9. LONG-TERM DEBT

Revenue Bonds - The source of repayment of these bonds is the income derived from the acquired or constructed assets and/or specific revenue sources. The outstanding revenue bonds as of September 30, 2014 include the following (All capitalized terms are as defined in each bond issue's official documents):

Taxable Communications Services Tax Revenue Bonds, Series 2004 – On April 1, 2004, the City issued \$49,910,000 bonds for the purpose of funding a deposit to the Police Pension Plan under the contributory defined benefit retirement plan known as the City Pension Fund for Firefighters and Police Officers and the General Employees' Pension Plan to maintain the City's annual contribution to such plans at approximately the same level as before the adoption of the 2004 Enhanced Pension Benefits. As of September 30, 2014, these bonds have an outstanding balance of \$1,290,000. The principal and interest on these bonds are payable from and secured by a pledge of and an irrevocable lien on the Communications Services Tax Revenues and Water Public Service Tax Revenues on a parity with the Series 2013 Bonds and any Additional Parity Bonds hereafter issued. The lien on and pledge of the Water Public Service Tax Revenues to the payment of the Bonds shall be released upon the City demonstrating that, based on the City's annual audited financial statements for the two fiscal years immediately preceding such release, the Communications Services Tax Revenues recognized for each of such fiscal year, without taking into consideration any Water Public Service Tax Revenues, were not less than 1.30 times the Maximum Bond Service Requirement on all parity bonds then outstanding. This lien has not yet been released.

The outstanding bonds, maturing after October 1, 2015, were refunded on September 10, 2014 (see Taxable Communications Services Tax Revenue Bonds, Series 2014).

Capital Improvement Revenue Bonds (Phase II of Forman Senior Housing Project), Series 2007 - On January 24, 2007, the City issued \$26,805,000 bonds for the purpose of funding (1) the design, construction, and equipping of approximately 220 residential units to become part of the City's senior housing facilities to be owned and operated by the City, to be located on the Senator Howard C. Forman Human Services Campus and related subordinate facilities, and (2) renovations to existing senior housing facilities owned and operated by the City. These bonds have an outstanding balance of \$24,015,000 due in varying installments through December 1, 2036. The outstanding bonds bear interest at rates from 3.75% to 5.00%, with interest payable semi-annually on June 1st and December 1st. The principal and interest on these bonds are payable from a pledge of and lien upon the City's electric franchise revenues on a parity with the Capital Improvement Revenue Refunding Bonds, Series 2006, and any Additional Parity Franchise Revenue Bonds. The bonds maturing on or after December 1, 2017 are subject to redemption at the option of the City, on or after December 1, 2016, in such order of maturity as the City selects, plus accrued interest to the redemption date.

Revenue Bonds (continued)

Charter School Revenue Bonds, Series 2008 - (Reissued in May 2014) - On March 25, 2008, the City issued \$64,095,000 bonds for the purpose of providing funds to: (i) finance the acquisition, construction and equipping of certain additions to existing charter school educational facilities located within the City and (ii) advance refund the outstanding City of Pembroke Pines, Florida Charter School Revenue Bonds, Series 2001A and 2001B (the "Refunded Bonds") in the aggregate principal amount of \$29,405,000 and \$17,715,000, respectively. The 2008 Bonds have an outstanding balance of \$62,695,000 due in varying installments through July 1, 2038. They initially bear interest at the Weekly Rate, but may be converted at the option of the City, to a Fixed Rate. The interest rate during each Weekly Rate Period will be determined by the Remarketing Agent. The 2008 Bonds shall not bear interest at an interest rate higher than 12% per annum. The 2008 Bonds and the City's regular payment obligations under the Series 2008 Swap Transaction, are payable from and secured by a lien upon and pledge of revenues derived by the City from lease payments made to the City as a result of its ownership and operation of the Charter Schools and Charter Lab School, including, fee-based pre-school programs and revenues received pursuant to leases and/or other agreements for use of such facilities. Pursuant to the Resolution, the City has covenanted to apply the funds on deposit in the Special Revenue Fund to the payment of the Charter School Lease Revenues prior to any other application. In the event the Pledged Revenues are not sufficient, the City has covenanted to budget and appropriate in its annual budget amounts sufficient to meet its obligation from Non-Ad Valorem Revenues. The covenant to budget and appropriate does not create any lien upon or pledge of such Non-Ad Valorem Revenues. The 2008 Bonds were issued on parity with any Additional Parity Bonds. They are subject to optional and mandatory tender for purchase and to optional and mandatory redemption prior to maturity. Holders of the 2008 Bonds may elect to have their 2008 Bonds purchased on any Business Day, upon delivery of a Tender Notice to the Tender Agent seven days prior to the applicable Purchase Date. They are subject to redemption on any Business Day at the option of the City at a redemption price equal to 100% of the principal amount of such 2008 Bonds plus accrued interest to the date of redemption.

In an effort to hedge its exposure to variable interest rates on the 2008 Bonds, the City has entered into four Qualified Fixed Payor Swap (pay-fixed, receive-variable interest rate swap) transactions (collectively, the "Series 2008 Swap Transaction") with two Counterparties.

Charter School Revenue Bonds, Series 2008 - (Reissued in May 2014) (continued)

The following diagram depicts the terms of the Series 2008 Swap Transaction:

The Series 2008 Swap Transaction has an initial notional amount equal to the initial aggregate principal amount of the 2008 Bonds and will terminate at various times with the final termination date on the final maturity date of the 2008 Bonds, unless earlier terminated pursuant to the terms of the applicable the 2008 Swap Transaction. The notional amount of the Series 2008 Swap Transaction will amortize at the same times and in the same amounts as the amortization of the 2008 Bonds. The City will pay a fixed rate of interest to each of the Swap Counterparties on their respective notional amounts equal to 3.324% and 3.794% and will receive in return from each of the Swap Counterparties a floating rate equal to the Securities Industry and Financial Markets Association (SIFMA) Municipal Swap Index, on the same notional amount determined on the day of the week specified in the applicable Series 2008 Swap Transaction. It is anticipated by the City that the floating rate payable by each of the Swap Counterparties will approximate the interest rate on the 2008 Bonds while the 2008 Bonds bear interest in the Weekly Rate Mode. There is no guarantee, however, that such rates will match at all times or at any time. The City is exposed to "basis risk" to the extent that the floating rate it receives from the applicable Swap Counterparty does not equal the interest rate it is required to pay on the 2008 Bonds. The City's payment obligations under the Series 2008 Swap Transaction (except for Swap Termination Payments) will be payable from Pledged Revenues, on a parity with the payment of interest on the 2008 Bonds and are paid on a priority to principal payments on the 2008 Bonds.

Revenue Bonds (continued)

Charter School Revenue Bonds, Series 2008 - (Reissued in May 2014) (continued)

The City's net payments/receipts under the Series 2008 Swap Transaction will consist of Periodic Payments based upon fluctuations in short-term interest rates and, in the event of a termination of the Series 2008 Swap Transaction prior to the stated term thereof, a potential Swap Termination Payment. The amount of such potential Swap Termination Payment will be based primarily upon market interest rate levels and the remaining term of the Series 2008 Swap Transaction at the time of termination. The City's obligations with respect to the payment of Swap Termination Payments, if any, are subordinate to the payment of Pledged Revenues on the 2008 Bonds and the Periodic Payments on the Series 2008 Swap Transaction.

On May 17, 2011, the City reissued the Charter School Revenue Bonds, Series 2008 (the Series 2008 Bonds) in the principal amount of \$63,495,000. This transaction was necessitated by the expiration of the Stand-by Bond Purchase Agreement on March 25, 2011 which was extended to May 24, 2011. The City, with the advice of the Financial Advisor, was able to remarket the Series 2008 Bonds to Wells Fargo Bank, National Association ("Wells Fargo") and obtain a variable rate of SIFMA rate plus 0.89% for a three year term. The Series 2008 Bonds have four interest rate SWAPs for which the City pays fixed rates to the Counterparties and the Counterparties pay the City the SIFMA rate. During the three year period with Wells Fargo, the effective interest cost to the City will be the fixed rates that the City pays to the Counterparties plus the 0.89% interest spread to Wells Fargo.

On May 29, 2014, the City reissued the Charter School Revenue Bonds, Series 2008 (the Series 2008 Bonds) in the principal amount of \$62,795,000. The City, with the advice of the Financial Advisor, was able to remarket the Series 2008 Bonds to PNC Bank, National Association (Bank) and obtain a variable rate of SIFMA rate plus 0.59% for a four year term with an expiration date of July 1, 2018. The Series 2008 Bonds have four interest rate SWAPs for which the City pays fixed rates to the Counterparties and the Counterparties pay the City the SIFMA rate. During the four year period with the Bank, the effective interest cost to the City will be the fixed rates that the City pays to the Counterparties plus the 0.59% interest spread to the Bank.

The debt service shown in the schedule appeared hereunder and the following "Schedule of Debt Service on Outstanding Bonds as of September 30, 2014" is based on the 0.64% interest rate which was the SIFMA Rate (0.05%) in effect at the financial statement date of September 30, 2014 (per GASB Statement No. 38, paragraph 10) plus 0.59% interest spread to the Bank.

Variable Rate Capital Improvement Revenue Refunding Bonds (Susan B. Anthony Center), Series 2008 (Reissued in September 2011) - On July 25, 2008, the City issued \$8,040,000 bonds under an Indenture of Trust between the Issuer and U.S. National Bank Association, as trustee for the purpose of current refunding the Variable Rate Capital Improvement Revenue Bonds, Series 2005 (Susan B. Anthony Center) in order to realize a net interest cost savings. The Series 2008 Bonds initially will bear interest at the Weekly Rate, determined by the Remarketing Agent each Wednesday and payable on the first Wednesday of each month. Interest on the Series 2008 Bonds will be paid at the lesser of 12% per annum. The Issuer may change the interest rate determination method from time to time. A change in the method, other than a change between the Daily Rate and the Weekly Rate, will result in the Series 2008 Bonds becoming subject to mandatory tender for purchase on the effective date of such change.

These 2008 Bonds have an outstanding balance of \$7,890,000. They will mature on October 1, 2038, subject to optional redemption, purchase and tender. During any Daily Period or Weekly Period, the Series 2008 Bonds are subject to redemption by the Issuer, at the option of the Issuer, in whole at any time or in part on any Interest Payment Date, less than all of such Series 2008 Bonds to be selected by lot or in such other manner as the Trustee shall determine, at a redemption price of 100% of the outstanding principal amount thereof plus accrued interest. The Series 2008 Bonds shall be subject to mandatory tender by the Registered Owners for purchase. The principal of, premium, if any, and interest on the Series 2008 Bonds are payable from and secured by a pledge of and an irrevocable lien upon the City's Electric Franchise Revenues on a parity with the Capital Improvement Revenue Refunding Bonds, Series 2006, the Capital Improvement Revenue Bonds (Phase II of Forman Senior Housing Project), Series 2007, and any Additional Parity Franchise Revenue Bonds.

On September 7, 2011, The City reissued the Variable Rate Capital Improvement Revenue Refunding Bonds (Susan B. Anthony Center), Series 2008 in the principal amount of \$8,040,000 as the Letter of Credit for these bonds expired on July 15, 2011 and was extended to September 15, 2011.

The debt service shown in the schedule appeared hereunder and the following "Schedule of Debt Service on Outstanding Bonds as of September 30, 2014" is based on the 2.0079% five year term (from September 7, 2011) Direct Purchase fixed rate in effect at the financial statement date of September 30, 2014 (per GASB Statement No. 38, paragraph 10).

Revenue Bonds (continued)

Public Improvement Revenue Refunding Bonds, Series 2014 – On September 10, 2014, the City issued \$29,040,000 bonds for the purpose of refunding (1) \$17,620,000 outstanding Public Improvement Revenue Bonds, Series 2004A, and (2) \$14,020,000 outstanding Public Improvement Revenue Bonds, Series 2004B. This refunding was undertaken to reduce total debt service payments over the next 21 years by \$402,963 and resulted in an economic gain of \$4,719,785. The Series 2014 Bonds have an outstanding balance of \$29,040,000 due in varying installments through October 1, 2034. The outstanding bonds bear an interest rate from 2.0% to 5.0%, payable semi-annually on April 1st and October 1st of each year. The principal and interest on these bonds are payable from a pledge of and lien upon the City's electric public service tax revenues on a parity with the Public Improvement Revenue Bonds, Series 2006. The bonds maturing on or after October 1, 2025 are subject to redemption at the option of the City, on or after October 1, 2024, in such order of maturity as the City selects, plus accrued interest to the redemption date.

General Obligation Bonds - The source of repayment of these bonds is the unlimited ad valorem taxes on all taxable real and tangible personal property within the City (except exemptions provided by applicable law). There are no direct limitations imposed by the Florida Constitution or the Florida Statutes on the amount of debt that the City can issue. The outstanding General Obligation Bonds as of September 30, 2014 are as follows:

General Obligation Bonds, Series 2005 – On September 30, 2005, the City issued its first General Obligation Bonds in the amount of \$47,000,000 for the purpose of funding multiple projects including, but not limited to, various roadwork projects, recreational and cultural amenities, economic development and neighborhood revitalization. On December 1, 2005, \$5,456,448 of the General Obligation Bonds, Series 2005 was used to refund the Capital Improvement Revenue Bonds, Series 1993, which had a principal outstanding balance of \$5,985,000. These Series 2005 bonds have an outstanding balance of \$37,860,000 due in varying installments through September 1, 2035. The outstanding bonds bear interest at rates from 3.30% to 4.55%, with interest payable semi-annually on March 1st and September 1st. The Series 2005 Bonds are general obligations of the City and are payable from unlimited ad valorem taxes on all taxable real and tangible personal property within the City (except exemptions provided by applicable law). There is no limitation as to the rate or amount of ad valorem taxes that can be levied for the purpose of paying the Series 2005 Bonds. The bonds maturing on or after September 1, 2016 are subject to redemption at the option of the City, on or after September 1, 2015, in such order of maturity as the City selects, plus accrued interest to the redemption date.

Derivative Instruments

On March 25, 2008, the City issued \$64,095,000 Charter School Revenue Bonds, Series 2008. In an effort to hedge its exposure to variable interest rates on the 2008 Bonds, the City has entered into four Qualified Fixed Payor Swap (pay-fixed, receive-variable interest rate swap) transactions (collectively, the "Series 2008 Swap Transaction") with two Counterparties. Based on the consistency of the terms of the swaps and the variable-rate bonds, the city determines that the swaps are hedging derivative instruments using the consistent critical terms method. The fair value and notional amount of the derivative instruments outstanding at September 30, 2014 and the changes in fair value of such derivatives instruments for the year then ended as reported in the Fiscal Year 2014 financial statements are as follows:

			Fair Value		
Changes in Fair Values			at September 30, 2014*		
<u>Classification</u>	<u>Amount</u>		<u>Classification</u>	<u>Amount</u>	<u>Notional</u>
Governmental Activities					
Cash flow hedges					
Pay-fixed interest rate swap	Deferred outflow	(\$1,454,920)	Debt	(\$8,103,207)	\$62,695,000

* The fair value is expressed from the point of view of the City.

The fair value balance and notional amount of the derivative instrument outstanding at September 30, 2014 are (\$8,103,207) in favor of the Counterparties and \$62,695,000 respectively.

The fair values of the interest rate swaps were provided by the Counterparties at mid-market. They were estimated using the zero-coupon method. This method calculates the future net settlement payments required by the swap, assuming that the current forward rates implied by the yield curve correctly anticipate future spot interest rates. These payments are then discounted using the spot rates implied by the current yield curve for hypothetical zero-coupon bonds due on the date of each future net settlement on the swaps.

Risks

Interest rate risk. The City is exposed to interest rate risk on its pay-fixed, receive-variable interest rate swap. As the SIFMA swap index decreases, the City's net payment on the swap increases.

Basis risk. The City is not exposed to basis risk on its pay-fixed interest rate swaps during the three year term beginning May 17, 2011 and four year term beginning May 29, 2014 because the variable-rate payments received by the City on these hedging derivative instruments and the interest rates that the City pays on its hedged variable-rate debt are based on the same SIFMA Municipal Index. The difference between these two rates are the **CONSTANT** 0.59% interest spread to the Bank. This interest spread eliminates all the costs and expenses associated with the Liquidity Facility and the Remarketing Agent.

Termination risk. The City or its counterparties may terminate a derivative instrument if the other party fails to perform under the terms of the contract. The early termination of a an Interest Rate Swap may result in a very substantial payment being due from one party to the other based on the market value of the Interest Rate Swap at the time of early termination and without regard to the fault, if any, of either party to the Interest Rate Swap or any specified affiliate thereof in connection with such early termination. Moreover, early termination of an Interest Rate Swap can leave a party unhedged with respect to the financial risk previously hedged by such terminated Interest Rate Swap.

NOTE 9. LONG-TERM DEBT (continued)

Derivative Instruments (continued)

Rollover risk The City is exposed to rollover risk on hedging derivative instruments that are hedges of debt that mature or may be terminated prior to the maturity of the hedged debt. When these hedging derivative instruments terminate, the City will be re-exposed to the risks being hedged by the hedging derivative instrument. The City is exposed to rollover risk on the pay-fixed, receive-variable interest rate swaps scheduled to mature in July 2018 because the hedged debt is scheduled to mature in July 2032.

Hedging derivative instrument payments and hedged debt - As of September 30, 2014, the aggregate debt service requirements of the City's Charter School Revenue Bonds, Series 2008 and the net receipts/payments on the associated hedging derivative instruments are as follows. These amounts assume that current interest rate of 0.64% (SIFMA + 0.59% Direct Purchase fixed spread for 4 years when there is no cost of Liquidity Facility Fees and Remarketing Fees) on the variable- rate bonds and the current SIFMA Municipal Swap Index rate of 0.05% of the hedging derivative instruments will remain the same for their terms. As these rates vary, interest payments on variable-rate bonds and net receipts payments on the hedging derivative instruments will change.

Contingencies

In the event the insurer's and the City's ratings are both downgraded below a rating of "A-" by Standard & Poor's Ratings Services (S&P) or "A3" by Moody's Investors Service (Moody's), the City will have the option, but not the obligation, of posting collateral in order to prevent swap termination. This option will not be available if the City's ratings are below "BBB" by S&P and "Baa2" by Moody's. The collateral posted is to be in the form of cash or U.S. Treasury securities in the amount of the fair value of hedging derivative instruments in liability positions net of the effect of applicable netting arrangements. If the City does not post collateral, the hedging derivative instrument may be terminated by the Counterparties. At September 30, 2014, the aggregate fair value of all hedging derivative instruments with these optional collateral posting provisions is a negative (\$8,103,207). If the collateral posting requirements were necessary at September 30, 2014, the City would be required to post \$8,103,207 in collateral to its counterparties. As the City negotiated termination at mid-market, termination values are the same as market values. As of September 30, 2014, the City's underlying General Obligation Bond rating is "Aa2" by Moody's, "AA" by Fitch Ratings (Fitch), and not rated by S&P, and the insurer's ratings are "A3" by Moody's and "not rated" by Fitch and S&P. Therefore, no collateral was posted.

Outstanding Advanced Refunded Bonds

In prior years, the City defeased certain revenue bonds by placing the proceeds of new bonds in an irrevocable trust to provide for all future debt service payments on the old bonds. Accordingly, the trust account assets and the liability for the defeased bonds are not included in the City's financial statements. At September 30, 2014, the \$6.2 million of bonds outstanding are considered defeased. They are listed as follows:

Consolidated Utility Systems Revenue Bonds, Series 1992 - The outstanding balance is \$6,215,000. These bonds were defeased on July 3, 1997. The escrow funds are held in a trust with assets sufficient to pay scheduled debt service requirements to maturity.

Bonds Authorized, but Un-issued

On March 8, 2005, the voters of the City of Pembroke Pines approved the issuance of \$100,000,000 General Obligation Bonds, of which \$47,000,000 General Obligation Bonds, Series 2005 were issued on September 30, 2005, and \$43,000,000 General Obligation Bonds, Series 2007 were issued on July 25, 2007. The City Commission had approved the issuance of the remaining \$10,000,000 of the General Obligation Bonds on January 21, 2015. The closing date is expected to be in June 2015.

Installment Purchase Contract

The City entered into a 5-year installment purchase contract with CTS America for a Police Records Management Software at a cost of \$590,327. Monthly payments are \$9,839.

The payments due in the fiscal year ended September 30, 2014 are as follows:

Pledged Revenues

The City has pledged the following revenues, net of specified operating expenses, if applicable, to repay the following revenue bonds:

Electric Franchise Fees (Franchise Revenue) are pledged to repay the outstanding \$75.37 million (including the \$7,890,000 for the Susan B. Anthony Center (SBA) Bonds) in revenue bonds issued in 2006, 2007, 2008, and 2010. Proceeds from the bonds provided financing for refunding debt and construction of various City projects including the senior housing (Tower 3) and the Susan B. Anthony Center. While the Franchise Revenue is pledged for the SBA Bonds, the debt service is being repaid by the rent received from the SBA. Except for the SBA Bonds, the bonds are payable solely from the Franchise Revenue and are payable through 2037. Based on the FY 2014 Franchise Revenue, the future maximum annual principal and interest payments on the bonds are expected to require 70% of the pledged revenue. The total principal and interest remaining to be paid on the bonds (excluding the SBA Bonds) is \$98,122,758. For FY 2014, the principal and interest paid (excluding the SBA Bonds) and the total Franchise Revenue were \$5,794,393 and \$8,529,691, respectively.

Electric Public Service Taxes (Public Service Revenue) are pledged to repay the outstanding \$54.26 million in revenue bonds issued in 2004, 2006, and 2014. Proceeds from the bonds provided financing for refunding debt and construction of various City projects including the senior housing (Towers 1 and 2). The bonds are payable solely from the Public Service Revenue and are payable through 2035. Based on the FY 2014 Public Service Revenue, the future maximum annual principal and interest payments on the bonds are expected to require 52% of the pledged revenue. Series 2001 Bonds were fully paid as of October 1, 2014. Series 2004 were refunded with Series 2014 Bonds on September 10, 2014. The new total principal and interest remaining to be paid on the bonds is \$74,681,674. For FY 2014, the principal and interest paid and the total Public Service Revenue were \$5,813,749 and \$10,461,326, respectively.

Charter School total revenues and Early Development Center lease payments (School Revenue) are pledged to repay the outstanding \$62.7 million in revenue bonds issued in 2008. Proceeds from the bonds provided financing for refunding debt and construction of additional classrooms. The bonds are payable solely from the School Revenue and are payable through 2038. Based on the FY 2014 School Revenue, the future maximum annual principal and interest payments on the bonds are expected to require 12% of the pledged revenue. The total principal and interest remaining to be paid on the bonds is \$69,752,549. For FY 2014, the principal and interest paid and the total School Revenue were \$2,883,712 and \$47,785,475, respectively.

NOTE 9. LONG-TERM DEBT (continued)

Pledged Revenues (continued)

Communications Services Taxes and Water Public Service Taxes (Communications and Water Tax Revenue) are pledged to repay the outstanding \$78.13 million in revenue bonds issued in 2004, 2013, and 2014. Proceeds from the bonds provided financing for the Firefighters Pension and the Police Officers and General Employees' Pension. The bonds are payable solely from the Communications and Water Tax Revenue and are payable through 2034. Based on the FY 2014 Communications and Water Tax Revenue, the future maximum annual principal and interest payments on the bonds are expected to require 72% of the pledged revenue. Series 2003 Bonds were refunded with Series 2013 Bonds on October 15, 2014, and Series 2004 Bonds were refunded with Series 2014 Bonds on September 10, 2014. The new total principal and interest remaining to be paid on the bonds is \$118,234,063.

For FY 2014, the principal and interest paid and the total Communications and Water Tax Revenue were \$6,187,232 and \$8,311,246, respectively.

Net Revenues of the Consolidated Utility System (Utility Revenue) are pledged to repay the outstanding \$10.35 million in revenue bonds issued in 2010. Proceeds from the bonds provided financing for the Consolidated Utility System Project. The bonds are payable solely from the Utility Revenue and are payable through 2026. Based on the FY 2014 Utility Revenue, the future maximum annual principal and interest payments on the bonds are expected to require 11% of the pledged revenue. The total principal and interest remaining to be paid on the bonds is \$12,670,093. For FY 2014, the principal and interest paid and the total net revenues of the Utility system were \$1,090,841 and \$13,755,051, respectively.

NOTE 10. RISK MANAGEMENT

The City is exposed to various risks of loss related to torts, theft or damage to and destruction of assets, errors, and omissions, injuries to employees, and natural disasters. The City established a risk management fund (an Internal Service Fund) to account for the uninsured risks of loss. Under this program, the risk management fund provides coverage for up to a maximum of \$350,000 (Self Insured Retention –“SIR”) for each City employee workers’ compensation claim, \$500,000 (SIR) for each Police or Firefighter’s workers’ compensation claim, \$150,000 (SIR) per occurrence for each general liability claim, \$150,000 (SIR) each accident for Automobile Liability, \$100,000 (SIR) each claim for Public Officials & Employment Practices Liability and \$25,000 (deductible) per loss for each employee theft claim.

The City’s exposure on health insurance is limited to \$1,981 per month per covered employee and their covered dependents. This is for claims only and does not include administrative expenses or stop loss. Total maximum loss exposure to the City for health insurance on covered employees and dependents was \$22,537,206 for the fiscal year ended September 30, 2014. The City purchases commercial insurance for claims in excess of coverage provided by the fund, and for all other risks of loss. There were no reductions in insurance coverage from the prior year. Settled claims have not exceeded the commercial coverage in any of the past three fiscal years.

All funds of the City participate in the program and make payments to the risk management fund based on actuarial estimates of the amounts needed to pay prior and current year claims. The estimated claims liability of \$9,480,931 reported in the fund at September 30, 2014 is based on the requirements of GASB Statement No. 10, as amended by Statement No. 30 includes IBNR (incurred but not reported claims), and is based on the estimated ultimate cost of settling the claims, using past experience adjusted for current trends, and any other factors that would modify past experience.

Claims liabilities include specific and incremental claim adjustment expenditures/expenses. In addition, estimated recoveries on unsettled claims, such as salvage or subrogation, were evaluated in terms of their estimated realizable value and deducted from the liability for unpaid claims. Estimated recoveries on settled claims were deducted from the liability for unpaid claims.

The changes in the fund’s claims liability amount during the past two years were as follows:

	<u>Beginning of Year Liability</u>	<u>Claims and Changes in Estimates</u>	<u>Claims Payments</u>	<u>End of Year Liability</u>
2013-2014	\$ 10,733,610	\$ 13,439,094	\$ (14,691,773)	\$ 9,480,931

NOTE 11. CONTINGENT LIABILITIES

Litigation

During the ordinary course of its operations, the City is a party to various claims, legal actions, and complaints. Most of these matters are covered by the City's Risk Management Program (See Note 10). Those which are not covered are handled by the City's legal counsel. In the opinion of the City's management and legal counsel, these matters are not anticipated to have a material financial impact on the City.

Federal and State Assisted Programs

Amounts received or receivable from grantor agencies are subject to future audit and compliance testing, which may result in adjustments by Federal and State grantor agencies. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of such expenditures which may be disallowed by the grantor agencies cannot be determined at this time, although the City expects such amounts, if any, to be immaterial.

NOTE 12. COMMITMENTS

On September 28, 1990, the City entered a "Large User Wastewater Agreement" with the City of Hollywood, Florida. The agreement provides for the connection of the portion of the City's sewage collection system east of Flamingo Road to the City of Hollywood's treatment and disposal facility. The City is being charged based upon an average daily wastewater flow to cover operating and maintenance expenses, non-operating expenses, capital expenditures, bond retirement, and interest expenses. The charge to operations of the water and sewer fund under this Agreement is \$6,113,594 for the year ended September 30, 2014.

In 1986, the City entered into a lease with the Broward County School Board and Walter C. Young Resource Center for fifty (50) years at \$1.00 per year. The City holds title to the Resource Center. The City also entered into an Interlocal Agreement in 1989 with the Broward County School Board to operate the Walter C. Young Resource Center. The City is responsible for a prorated share of the operating costs based on its usage as defined in the agreement. The Resource Center includes a Middle School for sixth, seventh and eighth graders, and also offers adult education classes on evenings and weekends. One of the City's Early Development Centers, "Bright Beginnings", is also located at the Resource Center.

On October 21, 1992, the City entered into an agreement with the Florida Wetlandsbank™ (FW), a Florida Joint Venture, wherein the City granted FW a license to develop a Wetlands Mitigation Bank at a site that then comprised approximately 450 acres located in the Chapel Trail Preserve. This agreement which lasted until December 31, 2004, established the first Wetland Mitigation Bank in Florida and the second in the nation. Florida Wetlandsbank's responsibilities included designing, permitting, and constructing the ecosystem; maintaining and monitoring the Wetlands for a five-year period once construction was completed; and the sales and marketing of the mitigation credits.

On January 1, 2005 the City assumed full responsibility and maintenance for the Wetlands. The City now owns 15 sites totaling approximately 620 acres of Wetlands. The City became the Grantor of the Mitigation Bank Irrevocable Trust Fund on April 5, 1995 in order to hold the funds to maintain the Wetlands in perpetuity. The current Trustee is the Bank of New York Mellon, Inc., and the beneficiaries of the Trust Fund are the City, the South Florida Water Management District, the U. S. Army Corps of Engineers, and Broward County. Payments are made quarterly from the investment earnings of the Trust Fund to cover the expenses in maintaining the Wetlands. In the event that investment earnings are insufficient to cover expenses, payments from the principal of the Trust can be utilized with the written consent of the Trust's beneficiaries.

At September 30, 2014 the balance in the Trust Fund account was \$526,273. For the fiscal year ended September 30, 2014, the Trust earned \$855 in investment income, and incurred expenses of \$16,410.

On March 15, 2001, the City entered into an Interlocal Agreement with The Florida Department of Children & Families (DCF), which provides for the City to develop, operate and maintain the 157-acre site of the former South Florida State Hospital. The site was originally leased by DCF from the State of Florida on January 4, 1973.

NOTE 12. COMMITMENTS (continued)

The agreement specifies that the City will sublease the site from DCF for a 50-year period from July 1, 2001 to June 30, 2051 for a \$300 annual administration fee, and is subject to other terms and conditions relating to the City's management of the site. The City has renamed the site "Senator Howard C. Forman Human Services Campus", and has subleased the site's facilities to various lessees. (See Note 8. Operating Leases). The City constructed three senior housing towers with a total of 614 apartment units, and has constructed the Susan B. Anthony Center for women with children whom are recovering from substance abuse, containing a 40-unit Residential Complex, an administration and treatment building, and an Early Learning Center at the site. The City has financed these projects with various bond issues. (See Note 9. Long-Term Debt). The site also includes a central kitchen facility for the City's Charter Schools as well as fuel storage tanks for the Charter School buses which are parked on the site. In fiscal year 2010, the City completed the renovation of an existing building on the site, and created an Artists' Colony named "Studio 18 in the Pines."

The structure contains rental studios and gallery space consisting of 18 inside studios, 5 outside studios, a jewelry studio and a ceramics studio. The studios range from 98 square feet to 260 square feet. All of the inside studios have water and air conditioning, and most have natural lighting.

The City has the following construction commitments as of September 30, 2014:

NOTE 13. OTHER POST-EMPLOYMENT BENEFIT PLANS (OPEB)

In fiscal year 2008, the City implemented Governmental Accounting Standards Board (GASB) Statement No. 45, "Accounting and Financial Reporting by Employers for Post-Employment Benefits Other Than Pensions" (GASB 45). Prior to GASB 45, most OPEB Plans were reported on a pay-as-you-go basis and a government's financial statements did not report the financial effects of these post-employment benefits until paid.

Summary of Significant Accounting Policies

Basis of Accounting - The Plan's policy is to prepare its financial statements on the accrual basis of accounting. Plan member contributions are recognized in the period in which the contributions are due. Employer contributions to the plan are recognized when due and the employer has made a formal commitment to provide contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of the Plan.

Method Used to Value Investments - Investments are reported at fair value in the financial statements based on the quoted market prices as reported by recognized security exchanges. Securities that have no quoted market price will be presented at estimated fair value as provided by the custodial bank and investment counsel. The Plan considers all highly liquid investments with an original maturity of 90 days or less when purchased to be cash equivalents. As of September 30, 2014, the Plan held \$51,670,234 in investments and \$1,259,261 in cash and short-term investments.

Plan Description

The retiree health and life insurance program is a single-employer defined benefit plan administered by the City which provides medical and life insurance benefits to eligible retirees and their beneficiaries. The health plan is self-insured and administered by United Medical Resources (UMR) on behalf of the City. The life insurance plan is fully insured through Sun Life Financial. The City Commission has authority to establish and amend benefits related to the City's retiree health and life insurance program. On December 7, 2007 the City adopted Ordinance 1598 creating the Other Post-Employment Benefits Trust Fund in accordance with Florida Statutes Chapter 115.

The City created a retiree health and life insurance program as adopted and amended by City Commission by the following ordinances:

Ordinance		Ordinance	
Number	Dated	Number	Dated
990	April 15, 1992	1480	March 17, 2004
1015	November 4, 1992	1554	August 16, 2006

Medical/Prescription Drug Plan Benefits

Coverage of health insurance is provided to all regular full-time permanent general employees, certified firefighters and police officers employees and their spouses, if hired before October 1, 1991, who have reached normal retirement age and completed service as prescribed by the City Pension Plan which covers the employee.

Coverage for employees hired after October 1, 1991 is limited to employee (single) coverage only. Effective July 1, 2010, general employees, who are members of the collective bargaining unit, that retire after July 1, 2010 may continue to participate in the City's health insurance plan but will be required to pay the active/blended rate. Additionally, effective July 1, 2010, members hired prior to May 1, 2005 will receive a health insurance subsidy of five dollars per month for each year of service, as long as they have completed at least 10 years of eligible service and retire from the City at age 55 or above.

Firefighter members hired on or after October 1, 1991 but prior to April 1, 2006 may elect to participate in the City's retiree health insurance plan, and the City will pay for the coverage of the employee only. Firefighters hired after April 1, 2006 are required to pay 100% of the active/blended rate for their retirement coverage.

NOTE 13. OTHER POST-EMPLOYMENT BENEFIT PLANS (OPEB) (continued)

Plan Description (continued)

Police officer members hired on or after October 1, 1991 but prior to October 1, 2006, may elect to participate in the City's retiree health insurance plan, and the City will pay for the coverage of the employee only. Police Officers hired after October 1, 2006 are required to pay 100% of the active/blended rate for their retirement coverage.

Primary insurance coverage is extended until the employee qualifies for Medicare benefits (at 65 years of age). At that time, Medicare becomes the primary coverage.

In addition, extended health insurance coverage is offered to terminated employees for a period of 18 months, divorced or widowed spouses of current employees for a period of 36 months, and disabled employees meeting the requirements of Social Security for a period of 29 months. These extended benefits are offered in order to comply with COBRA's requirements. The cost of this extended insurance coverage is paid by the covered individual using a blended/active rate.

Eligible retirees receive health care coverage through one of two medical plans, an EPO and a PPO plan. Effective July 1, 2010, general employees are required to contribute \$100 per month for their health insurance coverage in addition to the amounts contributed for dependent, spousal or family coverage. Police officers hired after May 1, 2010 eligible for single coverage are required to contribute an additional \$80 per month for their health insurance coverage for EPO and \$100 for PPO. Effective October 1, 2014, the City is extending its health care coverage to all eligible retirees' domestic partners.

Life Insurance Benefits

A life insurance benefit is provided to police officers, firefighters, general and utility employees. Employees from the Charter Schools are excluded from this benefit. The life insurance benefit available to retirees is equal to 100% of final salary at retirement, up to a maximum of \$100,000. The benefit amount is reduced by 50% at age 65. General and utility employees hired after February 1, 2010 and police officers hired after May 1, 2010 shall no longer be eligible to participate in the retiree life insurance program and their life insurance policy will terminate when they separate from the City.

Contributions and Reserves

Funding Policy

Contributions are required for both retiree and dependent health insurance coverage. Currently, retirees are not required to pay contributions for the life insurance benefits.

Contribution rates are determined based on the following factors: hire date, retirement date, and employee group. Based on these factors, retirees pay either the full rates, reduced rates or nothing for the medical and prescription drug benefit. The contribution requirements of the plan members are established and may be amended by the City Commission. The City has adopted a funding plan that will see annual increases in City contributions within two to three years. The percentage contributed is expected to equal the Annual Required Contribution (ARC) as determined by the annual actuarial valuation. Administrative costs are financed through investment earnings where available.

For the year ended September 30, 2014, the Plan members contributed \$675,017 and the City contributed \$9,352,000 which was 115% of ARC. The ARC as determined by the actuarial valuation was \$8,103,000.

Reserves

The balance in the Plan's legally required reserves as at September 30, 2014 was \$526,656.

Funded Status and Funding Progress (continued)

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about the future employment, mortality, and the healthcare cost trend. Actuarially determined amounts are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedules of funding progress, presented as Required Supplemental Information (RSI), following the Notes to the Basic Financial Statements, will present multi-year trend information about whether the actuarial values of plan assets are increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

The accompanying schedules of employer contributions will present trend information about the amounts contributed to the Plan by the employer in comparison to the ARC; an amount that is actuarially determined in accordance with the parameters of GASB Statement 43 and 45. The ARC represents the level of funding that, if paid on an ongoing basis, is projected to cover normal cost for each year and amortize any unfunded actuarial liabilities over a period not to exceed 30 years.

Projection of benefits for financial reporting purposes are based on the substantive plan (the plan understood by the employer and the plan members) and includes the types of benefits provided at the time of each valuation, and the historical pattern of sharing of benefit costs between the employer and the plan members to that point.

Investments

Authorized investments are subject to limitations prescribed in the OPEB Investment Policy. Investments in equities are limited to 60% of the portfolio, of which international equities shall not exceed 20% of the equity portfolio. Property and or real estate securities shall not exceed 10% of the total portfolio at cost, and there is no limitation on fixed income securities. The assets of the OPEB Trust fund are currently invested in money markets, mutual funds, and various investment accounts. Fiduciary Trust International of the South acts as the custodian, and the investment portfolio is managed by an Investment Consultant. The Plan's net investment income for the year ended September 30, 2014 was \$4,111,653. As of September 30, 2014, the Plan held no single investment that exceeded 5% of net position. Methods and Assumptions

The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility on actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations. Additional information as of the actuarial valuation is as follows:

Retiree Health and Life Insurance Program

Valuation date	10/1/2013
Actuarial cost method	Projected Unit Credit Method
Amortization method	Level percent, open
Remaining amortization period	30 years

NOTE 14. MUNICIPAL EMPLOYEES RETIREMENT PENSION PLANS

The City is the sponsor of two single-employer Public Employee Retirement Systems (PERS) that are administered to provide pension benefits to its employees. The City administers the General Employees Pension Plan, and a nine-person Board of Trustees administers the City Pension Fund for Firefighters and Police Officers. The City contributes to the General Employees Pension Plan (GEPP) and the City Pension Fund for Firefighters and Police Officers (CPFFPO), which are both defined benefit pension plans.

General Employees Pension Plan

Summary of Significant Accounting Policies

Basis of Accounting – The Plan’s policy is to prepare its financial statements on the accrual basis of accounting. Plan member contributions are recognized in the period in which the contributions are due. Employer contributions to the plan are recognized when due and the employer has made a formal commitment to provide contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of the Plans. Investment and administrative expenses are paid out of Plan assets that are replenished by investment earnings and employee and City contributions in order to maintain the plan actuarially sound.

Method Used to Value Investments - Investments are reported at fair value in the financial statements based on the quoted market prices as reported by recognized security exchanges. Bonds are reported at established fair value. Securities that have no quoted market price are presented at estimated fair value as provided by the custodial bank and investment counsel.

Plans’ Membership Information

At October 1, 2013, the date of the latest actuarial valuation, the Plans’ membership consisted of:

	<u>2013</u>
Active members	39
Retired members and beneficiaries currently receiving benefits	357
Disabled members receiving benefits	3
Terminated and inactive vested members (including bargained employees whose benefit was frozen effective 7/1/2010)	309

NOTE 14. MUNICIPAL EMPLOYEES RETIREMENT PENSION PLANS (continued)

General Employees Pension Plan (continued)

Plan Description

The General Employees Pension Plan of the City of Pembroke Pines was established by Referendum in 1973 (collectively known as the “Referendum”) as restated October 1, 1989, as amended by the following Ordinances (collectively known as the “Ordinances”):

General Employees Pension Ordinances			
Ordinance Number	Dated	Ordinance Number	Dated
992	April 15, 1992	1515	May 18, 2005
1058	December 15, 1993	1520	August 3, 2005
1297	March 17, 1999	1555	August 16, 2006
1329	February 2, 2000	1614	September 3, 2008
1413	June 19, 2002	1668	August 4, 2010
1479	March 17, 2004	1806	January 7, 2015

The Plan, which is a single-employer plan, was established to provide retirement benefits to general and utility employees of the City of Pembroke Pines. A more detailed description of the Plan and its provisions appears in the Referendum constituting the Plan and in the summary plan description. The Plan does not issue a stand-alone financial report, but is included in the reporting entity of the City as a pension trust fund.

Eligibility

All full time employees, as defined in the Referendum, were required to participate in the Plan as a condition of continued employment. However, effective July 1, 2010, bargaining unit members are no longer allowed to participate in the Plan, and any benefits accrued up to June 30, 2010, are frozen. Bargaining unit members will not accrue any additional benefits. Non-bargaining unit members are still allowed to participate in the Plan and active members are still accruing benefits. However, effective October 1, 2014, non-bargaining employees hired on or after October 1, 2014 will no longer be eligible to enter this plan. The City is also extending its benefits coverage to all eligible retirees' domestic partners effective October 1, 2014.

Service Retirement Benefits

Upon normal retirement, a participant will receive a monthly pension amount equal to 2.85% of average monthly earnings for the highest two years of continuous service multiplied by years of service (not to exceed 28.07 years).

A participant may retire early after completing 5 years of continuous service and attaining 50 years of age. Early retirement benefits are calculated in a manner similar to those for normal retirement, but at an actuarially reduced amount of 6 2/3% for each year that the early retirement date precedes normal retirement.

NOTE 14. MUNICIPAL EMPLOYEES RETIREMENT PENSION PLANS (continued)

General Employees Pension Plan (continued)

Disability Benefits

If a participant becomes totally disabled before termination of employment and prior to reaching normal retirement age, he or she is entitled to do one of the following:

Non-service-related – Ten years of vesting service is required for a non-service-related disability benefit to be payable. If vested, the benefit payment is based on the accrued benefit on the date of disability.

Service-related - Benefits will be the greater of (i) earned pension as of the date of disability or (ii) 40% of the current monthly pay as of such date.

Cost of Living Adjustments

General employee members who retired on or after October 1, 2001 receive an annual 3.0% cost of living adjustment (COLA) to their retirement benefit. The COLA is applied to the benefit effective October 1 of each year. Effective February 1, 2010, the COLA for all participants entitled to receive a COLA is reduced from 3% to 2% per year. Effective July 1, 2010, there is no retiree annual pension COLA adjustment for bargaining unit employees who retire after July 1, 2010, unless such active individual has reached Normal Retirement Age as defined in the Plan.

Benefit payments under the General Employees Pension Plan are paid directly out of fund assets.

Other forms of benefits are available to Plan participants and are further discussed in the Referendum.

Funding Policy

The City of Pembroke Pines is required to contribute an actuarially determined amount that, when combined with participant's contributions, will fully provide for all benefits as they become payable. The funding policy can only be amended by authorization of the City Commission.

Effective February 1, 2010, non-bargaining unit participants are required to contribute 7.25% of regular wages down from 8.5%. Effective July 1, 2010, bargaining unit members are no longer required to contribute to the Plan since the Plan was closed, and the benefits were frozen. In fiscal year 2014, employee contributions for active members amounted to \$237,040.

Fiscal Year Ended September 30, 2014

NOTE 14. MUNICIPAL EMPLOYEES RETIREMENT PENSION PLANS (continued)

General Employees Pension Plan (continued)

Funding Policy (continued)

The City's Annual Required Contribution (ARC) for fiscal year 2014 amounted to \$3,829,070 or 121.0% of annual covered payroll for active members as compared to the ARC of \$6,674,902 or 234.6% of covered payroll in fiscal year 2013. In fiscal year, the City contributed \$16,474,902, which is \$12,645,832 in excess of the ARC in order to reduce the unfunded liability.

The City's ARC for fiscal year 2014 is based on the actuarial report using the Entry Age Cost method.

On April 1, 2004 the City deposited \$19,370,924 into the General Employees Pension Plan as a lump sum contribution. This was part of the Taxable Communications Services Tax Revenue Bonds, Series 2004 (Series 2004 Bonds). The Series 2004 Bonds were issued, amongst other reasons, to pay for the enhanced benefit of a 2% cost of living adjustment as approved by the City Commission, and to maintain the City's Annual Required Contributions (ARC) at the "pre-cost of living" level for the existing Plan participants. See also Note 9. for additional information on the bond issue.

Investments

As of September 30, 2014, the Plan held no single investment that exceeded 5% of net assets. Authorized investments are subject to limitations prescribed in the City's Investment Policy as adopted per Ordinance 1515, dated May 18, 2005. Investments in equities are limited to 60% of the portfolio, of which international equities shall not exceed 20% of the equity portfolio. Property and/or real estate securities shall not exceed 10% of the total portfolio at cost, and there is no limitation on fixed income securities. The assets of the General Employee Pension fund are currently invested in various separate investment accounts offered by the Principal Financial Group. As of September 30, 2014, the investments held by the Plan were not required to be categorized per Statement No. 40 of the Governmental Accounting Standards Board. The Plan's net investment income for the year ended September 30, 2014 was \$12,873,558, a decrease of \$1,321,000 from last year's net investment income \$14,194,558.

The money weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested. The annual money-weighted rate of return on the Plan's investment for the year ended September 30, 2014 was 14.04%.

DROP Plan

Effective March 17, 1999, the City created the Deferred Retirement Option Plan (DROP) under Ordinance 1297. This plan is a defined contribution plan created in accordance with Section 401(a) of the Internal Revenue Code. An active participant of the General Employees' Pension Plan becomes eligible to participate in the DROP on the first day of the month coincident with or next following the active participant's normal retirement date. Upon entry into the DROP, an amount equal to the participant's monthly retirement benefit is transferred to an account designated by the participant for investment. The maximum period of DROP participation is five (5) years.

The schedule of funding progress, presented as Required Supplemental Information (RSI) following the Notes to the Basic Financial Statements presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the AAL for benefits. In fiscal year 2014, the City used the entry age cost method to determine the annual required contribution (ARC), the funded status of the plan, and a schedule of funding progress is presented using the entry age actuarial cost method. The purpose of doing so is to provide information that serves as a surrogate for the funded status and funding progress of the plan.

Net Pension Liability of the City

Summary of Significant Accounting Policies

Basis of Accounting – The Plan’s policy is to prepare its financial statements on the accrual basis of accounting. Plan member contributions are recognized as revenues in the period in which the contributions are due. Employer (City) contributions to the plan are recognized as revenues when due pursuant to the Actuarial Valuation. State contributions are recognized as revenues in the period which they are approved by the State. Benefits and refunds are recognized when due and payable in accordance with the terms of the Plan. Interest and other income are recorded as earned and dividend income is recorded as of the ex-dividend date. The Plan adopted Governmental Accounting Standards Board (GASB) Statement No. 67, *Financial Reporting for Pension Plans – an amendment of GASB Statement No. 25* (GASB Statement No. 67). The adoption of GASB 67 required a restatement of prior years’ liabilities. As of September 30, 2013, the total liabilities were restated to \$915,411 from \$92,057,067, and the net position was restated to \$436,512,061 from \$343,747,785.

Cash and Cash Equivalents – The plan considers all highly liquid investments with an original maturity of one year or less when purchased to be cash equivalents.

Method Used to Value Investments - Investments are reported at fair value in the financial statements based on the quoted market prices as reported by recognized security exchanges. Bonds are reposted at established fair value. Securities that have no quoted market price are presented at estimated fair value as provided by the custodial bank and investment counsel.

Plans’ Membership Information

Eligibility

All full time employees, as defined in the Ordinances, are required to participate in the Plan as a condition of continued employment, provided that at the time of hiring the employee is at least eighteen years of age and satisfactorily completes all required medical examinations. The City is also extending its benefits coverage to all eligible retirees' domestic partners effective October 1, 2014.

Service Retirement Benefits

Any member may retire on a normal service retirement pension upon attainment of age 50 and completion of 10 years of continuous service, or upon completion of 20 years of continuous service or attainment of age 55 with no service requirement if eligible on February 19, 1981.

Police Officers

Police officers hired before May 1, 2010 shall receive a monthly pension upon normal retirement of 3% of the average monthly earnings for the highest two years of continuous service up to 20 years plus 4% of average monthly earnings times years of continuous service in excess of 20 years prior to May 1, 2010 plus 3.5% of the average monthly earnings times years of continuous service after April 30, 2010, provided the pension does not exceed 80% of the average monthly earnings for the highest two years of continuous service.

Police officers hired after April 30, 2010 shall receive a benefit amount equal to 3% per year of the average monthly earnings for the highest two years multiplied by the number of years of continuous service provided the pension does not exceed 80% of the average monthly earnings for the highest two years of continuous service.

Effective March 17, 2004, eligible police officer members, age 50, who had completed 16 years of service, but no more than 20 years of service may purchase an increase to the benefit multiplier to achieve a final retirement benefit not to exceed 80% of his or her average monthly earnings.

Firefighters

Firefighter members hired on or before June 18, 2003 shall receive a monthly pension, payable for life, equal to 4% per year of continuous service accrued prior to May 1, 2010 plus 3.5% per year of continuous service after April 30, 2010 times of the average monthly earnings for the highest two years multiplied by the number of years of continuous service provided the pension does not exceed 80% of the average monthly earnings.

Service Retirement Benefits (continued)

Firefighter members hired after June 18, 2003 but before May 1, 2010 shall receive a benefit amount equal to 4% plus 3.5% per year of continuous service after April 30, 2010 times the average monthly earnings for the highest two years provided pension does not exceed 80% of the average monthly salary. To be eligible for this benefit, firefighter members must retire or enter the DROP no later than the date they accrue the same accrual percentage they would have reached under the terms of the Plan in effect prior to April 30, 2010.

Firefighters hired after April 30, 2010 shall receive a benefit amount equal to 3% of the average monthly earnings for the highest two years of continuous service multiplied by the number of years of continuous service provided that the pension does not exceed 80% of the average monthly earnings.

For firefighters hired after March 31, 2006, in no event shall the benefit exceed 98% of average monthly regular wages.

However, police officer and firefighter members as of October 1, 1980 shall receive at their normal retirement date (age 55, regardless of years of service) the greater of the benefit provided by the formula above or 50% of average monthly earnings for the highest two years of continuous service.

For firefighter and police officer members who elect to retire under the Career Anniversary Pension retirement Incentive Option, earnings may include payment up to 1,000 hours of accrued unused leave.

Effective June 18, 2003 (Firefighters) and March 17, 2004 (Police) continuous service for members may include, up to four years purchased for active service in the Armed Forces or Merchant Marines of the United States prior to employment by the City. Effective March 17, 2004, police officer members may purchase up to four years prior service as a certified police officer in the United States.

Other forms of benefits are available to Plan participants and are further discussed in the Ordinances.

Disability Benefits

Service related - Any member who becomes totally and permanently disabled at any time as a result of illness or injury suffered in the line of duty may be retired on an accidental disability pension.

Non-service related - Any member who becomes totally or permanently disabled after 10 years of creditable service as a result of illness or injury not suffered in the line of duty may be retired on an ordinary disability retirement pension.

Upon disability retirement, a member is entitled to a monthly pension benefit. For a service connected disability, the minimum pension payable is $66\frac{2}{3}$ of the average monthly salary of the member at the time of disability retirement or accrued benefit. For a non-service connected disability, a member will receive a monthly pension benefit equal to the greater of 3% of the average monthly earnings on the date of disability or accrued benefits subject to a maximum of 50% of monthly earnings (but not greater than 35% of average monthly earnings).

The service-incurred and non-service-incurred disability benefits shall be reduced or offset by the regular monthly claims to which the disabled member is entitled under Worker's Compensation and under the provision of social security to the extent permitted by law. The claims received by the retirees are paid to the Plan to achieve this reduction.

Death Benefits

The Plan also provides for spouses and/or children of members for both service related and non-service related deaths.

Refund of Employee Contributions

If a member resigns or is lawfully discharged before retirement, their contributions with 3% simple interest per annum are returned to them. The Plan also provides a special provision for vested benefits for employees who terminate after 10 years of service.

Termination Benefits

Upon termination after completing at least 10 years of continuous service, a member is entitled to a monthly benefit of 3% of average monthly earnings times the number of years of continuous service as of date of termination, not to exceed 80% of the average monthly earnings.

13th Check Benefits

Retired police officers and disabled police officers receiving pension or DROP benefits, prior to October 1, 2006, or their beneficiaries may be eligible to receive a supplemental pension distribution, the amount of which shall be determined September 30th each year. The amount of the distribution should be up to 2% of investment return in excess of 9% for police officers who retired after October 1, 2003 but before October 1, 2006, or their beneficiaries (8% for police officers who retired prior to October 1, 2003) based on the present value of future pension payments of current police officer members, not to exceed outstanding balance of cumulative net actuarial gains. Any distributable amount is allocated to eligible members based upon years of service with a prorated share during the first year of entitlement.

No supplemental benefits will be available for members who retire, enter the DROP or are disabled on or after October 1, 2006 or their beneficiaries. Police retirees who retired prior to April 1, 2006 were provided with a one-time irrevocable option to continue to receive the 13th check; or they may opt to receive instead a cost of living increase to their retirement benefit.

Deferred Retirement Option Plan (DROP)

During December 1996, the Plan adopted the Deferred Retirement Option Plan (the DROP) under Ordinance 1198. Eligible police officers and firefighter members may enter into the DROP.

Upon becoming eligible to participate in the DROP, a member may elect to enter that program for a maximum of 5 years. DROP payments contributed to a member's DROP account earn or lose interest at the same rate and frequency as in the Plan, less reasonable and necessary administrative expenses, unless fixed interest rate option below is selected.

On June 18, 2003 (for firefighters) and March 17, 2004 (for police officers) the City adopted Ordinances giving members the additional option of having their DROP account earn an annual fixed interest rate of 8% on future payments and on all or any portion of the member's DROP account balance. Annually, during the month of September only, members may change their rate of return election to be effective as of the following October 1". Members participating in the DROP on April 30, 2010, shall be eligible to elect between earning the same rate and frequency as the Plan or an annual fixed interest rate of 8%.

For members hired before May 1, 2010 entering the DROP after April 30, 2010, DROP interest credits will be based upon Plan gross return, subject to a minimum 5% to a maximum 8% per annum.

For members hired after April 30, 2010 entering the DROP, interest credits will be based upon Plan gross return.

Cost of Living Adjustment (COLA)

Effective April 1, 2005 and April 1 of each year thereafter, firefighter retirees, their beneficiaries and DROP participants who were receiving benefits or enrolled in the DROP on or after June 18, 2003 will receive thereafter a 2% increase in their retirement benefit or an adjustment equal to the total percentage increase in base wages, excluding performance or merit adjustments, provided in collective bargaining agreement to bargaining unit members, for the City's fiscal year commencing the preceding October 1, whichever is greater. Upon retirement, firefighter members who were hired on or after April 1, 2006 shall receive a fixed 3% increase to their monthly retirement benefit on April 1 of each year following retirement. Firefighters hired on or after May 1, 2010, who retire or enter the DROP, and their beneficiaries, shall receive a 1.5% increase to their retirement benefit on October 1st each year following retirement. If benefit is received for less than one year, COLA is prorated for that first year.

Effective October 1, 2009, and October 1 of each year thereafter, police retirees, their beneficiaries and DROP participants who were receiving benefits or enrolled on or after October 1, 2003, will receive a 1.5% increase to their retirement benefit. If the benefit is received for less than one year, COLA is prorated for that first year.

Effective October 1, 2009, and October 1 of each year thereafter, police retirees who retired or entered the DROP on or after October 1, 2006, or their beneficiaries, will receive a 3.0% increase to their retirement benefit. Effective May 1, 2010, police officers who were hired prior to May 1, 2010 and retire or enter the DROP after April 30, 2010 and their beneficiaries, shall receive a 2% increase to their retirement benefit on October 1st each year following retirement. Police officers hired on or after May 1, 2010, who retire or enter the DROP, and their beneficiaries, shall receive a 1.5% increase to their retirement benefit on October 1st each year following retirement.

Funding Policy

The City of Pembroke Pines is required to contribute an actuarially determined amount that, when combined with participants' contributions and contributions from the State of Florida, will fully provide for all benefits as they become payable. The City's contribution, excluding amounts from the State, was \$23,585,326 or 72.1% of covered payroll.

Pursuant to Florida Statutes, Chapters 175 and 185 contributions from the State of Florida Department of Insurance consist of excise tax imposed by the City upon certain casualty insurance companies on the gross amount of receipts of premiums from policy holders on all premiums collected on casualty insurance policies covering property within the City. The allowable portion of the State contribution is used to reduce the City's contributions when received.

The State contributions totaled \$2,629,081 or 8.0% of covered payroll, and are recorded as revenues and expenditures in the General Fund before being reported as contributions in the pension trust fund. The State contributions consist of local Insurance Premium Tax revenues which are used to fund additional benefits for members of the Plan, in accordance with Florida Statutes 175 and 185.

Members of the Plan who are certified firefighters and police officers make regular contributions to the Plan at a rate equal to 10.4% of their respective annual earnings until completion of 26 2/3 year of continuous service. Member contributions for the fiscal year ended September 30, 2014 amounted to \$2,983,464.

Funding Policy (continued)

On October 17, 2003 the City contributed \$36,720,000 to the Plan as a result of the Taxable Communications Services Tax Revenue Bonds, Series 2003A (Series 2003 Bonds). The Series 2003 Bonds were issued to finance the enhanced benefits for firefighter members of the Plan. Benefits included, but were not limited to, a minimum of 2% cost of living adjustment for firefighter members, and up to 1,000 hours of unused leave can be included as part of the earnings used to calculate pension benefits. See also Note 9. for additional information on the bond issue.

On April 1, 2004 the City contributed \$26,200,000 to the Plan as a result of the Taxable Communications Services Tax Revenue Bonds, Series 2004 (Series 2004 Bonds). The Series 2004 Bonds were issued, amongst other reasons, to finance the enhanced benefits for police officer members of the Plan, as well as to maintain the City's contribution at the same percentage level of payroll prior to the enhanced benefits. These benefits were similar to the firefighter members, and included, but were not limited to, a 1.5% cost of living adjustment, and up to 1,000 hours of unused sick leave can be included as part of earnings used to calculate pension benefits. See also Note 9. for additional information on the bond issue.

All eligible employees, as a condition of membership, must agree in writing on becoming a member to make the contribution specified in the Plan. These contributions are in the form of payroll deductions until the member has completed twenty-six and two-thirds years of continuous service.

Investment and administrative expenses are paid out of Plan assets that are replenished by investment earnings and employee and City contributions in order to maintain the Plan actuarially sound.

Property and Equipment

Land is carried at cost. Property and equipment are also stated at cost and depreciated using the straight-line method over the estimated useful lives of the related assets.

Property and equipment consist of the following at September 30, 2014:

<u>Description</u>	<u>Estimated Useful Life</u>	<u>FY2014</u>
Land	-	\$ 28,000
Building	39 years	343,399
Building improvements	39 years	90,834
Equipment	5 years	27,600
Total property and equipment		489,833
Accumulated depreciation		(108,589)
Property and equipment, net		<u>\$ 381,244</u>

These assets commenced depreciation in December 2007 when they were placed in service. For the year ended September 30, 2014, the depreciation expense amounted to \$7,352.

Investments

Investments are reported at fair value as of September 30, 2014. The fair value of the quoted investments is based on the closing sales price or bid price as reported by recognized security exchanges. Bonds are reported at established fair value. Securities that have no quoted market price are presented at estimated fair value as provided by the custodial bank and investment counsel.

Unrealized gains and losses are presented as net appreciation/(depreciation) in fair value of investments along with the gains and losses realized on the sales of the investments. Purchases and sales of investments are recorded on a trade-date basis.

The Plan's investment policy is determined by the Board of Trustees. The policy has been identified by the Board to conduct the operations of the Plan in a manner so that the assets will provide pension and other benefits provided under applicable laws, including City Ordinances, preserving principal while maximizing return.

Investments (continued)

The Trustees are authorized to acquire and retain every kind of property, real, personal or mixed, and every kind of investment specifically including, but not by way of limitation, bonds, debentures, and other corporate obligations, and stocks, preferred or common.

Investment in all equity securities shall be limited to those listed on a major U.S. stock exchange and limited to no more than 72% (at market) of the Plan's total asset value with no more than 5% of the total market value shall be invested in the equity securities of any one company. Investments in stocks of foreign companies shall be limited to 10% of the value of the portfolio. No more than 15% of the equity securities are to be invested in small cap stocks and no more than 12% in mid cap stocks.

The fixed income portfolio shall be comprised of securities with a minimum quality rating of "A" or equivalent as rated by one or more recognized bond rating services at the time of purchase. Fixed income investments that are downgraded below BAA shall be liquidated within a reasonable period of time. If the manager determines it is prudent to hold an investment that has been downgraded below BAA they will be required to report to the board on the status of and the reason for holding said bond. No more than 5% of the total market value of fixed income securities shall be invested in the debt obligations of any one fixed income issuer except for securities issued and guaranteed by the United States Government, or its agencies, which may be held without limitations.

Types of Investments

Florida statutes and Plan investment policy authorize the Trustees to invest funds in various investments. The current target asset allocation range of these investments at market is as follows:

Authorized investments	Target	Minimum	Maximum
Domestic equities	52.00%	42.00%	62.00%
Fixed income	30.00%	20.00%	50.00%
International equities	8.00%	0.00%	10.00%
Real estate	10.00%	0.00%	12.00%
Cash	0.00%	0.00%	10.00%

The Plan's net investment income for the year ended September 30, 2014 was \$44,126,987, as compared to last year's net investment income of \$53,755,415 as restated (See Note 3. Deposits and Investments for additional information).

The money weighted rate of return expresses investment performance, net of investment expense, adjusted for changing amounts actually invested. The annual money-weighted rate of return on the Plan's investment for the year ended September 30, 2014 was 10.20%.

Net Pension Liability of the City

The components of the net pension liability of the City as of September 30, 2014 were as follows:

	<u>2014</u>
Total pension liability	\$671,557,750
Plan fiduciary net position	<u>(483,895,286)</u>
City net pension liability	<u><u>\$187,662,464</u></u>
Plan fiduciary net position as a percentage of total pension liability	72.06%
Net pension liability as a percentage of covered employee payroll	680.21%

Actuarial Assumptions

The total pension liability as of September 30, 2014 was determined using an actuarial valuation as of October 1, 2013, with update procedures used to roll forward the total pension liability to September 30, 2014. The actuarial valuation used the following actuarial assumptions:

Actuarial cost method	Entry Age Cost
Amortization method	Level percent, closed
Amortization period	30 years
Asset valuation method	5-year smoothed market
Inflation	3.50%
Salary increases	3.75% - 12.00%
Investment rate of return	8.00%
Retirement age	Experience-based rates specific to eligibility condition
Cost of living increases:	
Firefighters	0.0%, 1.5%, 2.0%, or 3.0%
Police	0.0%, 1.5%, 2.0%, 2.5%, or 3.0%

Future employee contributions are assumed to continue at 10.4%, and the City is expected to contribute amounts necessary on an actuarial basis to fund the Plan's expenses, normal cost, and to amortize the unfunded actuarial accrued liability.

Mortality rates are calculated with RP 2000 combined mortality table with blue collar adjustment, separate for male and female, with fully generational mortality improvements projected to each future payment date with Scale AA. Disabled mortality rates are calculated with the RP 2000 disabled mortality table, separate for male and female, with fully generational mortality improvements projected to each future payment date with Scale AA.

A discount rate of 8.00% was used to measure the total pension liability. The discount rate was based on the expected rate of return on Plan investments of 8.00%. The projection of cash flows used to determine this discount rate assumed member contributions will be made at the current contribution rate and employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member contribution rates. Based on these assumptions, the Plan's fiduciary net position is projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on Plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

The following presents the net pension liability of the City using the discount rate of 8.00%, as well as what the employer net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (7.00%) or 1-percentage point higher (9.00%) than the current rate:

Florida Retirement System (FRS) - Charter School Employees

On August 16, 2006, the City Commission passed Resolution number 3105 which mandated that all Pembroke Pines Charter Schools' full-time employees hired after August 7, 2006 and all part-time employees regardless of the date of hire will join the Florida Retirement System (FRS) Pension Plan. Individuals who were members of the ICMA-RC Defined Contribution Plan were given a one-time irrevocable election whether or not to participate in the FRS Pension Plan.

The Charter Schools' employees participate in the Florida Retirement System (FRS), a cost-sharing, multiple-employer, defined benefit Public Employment Retirement System (PERS). The FRS is totally administered by the State of Florida.

Plan Description

Benefits are computed on the basis of age, average final compensation and service credit. Average final compensation is the average of the highest five (5) fiscal years of earnings. The FRS provides vesting of benefits after six (6) years of creditable service. Early retirement may be taken any time after vesting; however, there is a 5% benefit reduction for each year prior to normal retirement age or date. The FRS also provides death and disability benefits. A State Statute establishes the benefit. Normal retirement requirements are vesting and age 62 with six years of service, or 30 years of creditable service regardless of age if the individual was employed by an FRS employer prior to July 1, 2011. If the member was employed on or after July 1, 2011, normal retirement is age 65 with eight years of vested service; or the age after 65 that the member becomes vested; or thirty-three years of service, regardless of age.

FRS issues an annual financial report. A copy can be obtained by sending a written request to:

Division of Retirement
P.O. Box 9000
Tallahassee, FL. 32315-9000

Funding Policy

The Charter Schools' required contribution rate is established, and may be amended, by State Statute. For the fiscal year ended June 30, 2014, the contribution rate increased from 5.18% to 6.95% of covered payroll which amounted to \$1,321,708. The Charter Schools are required to contribute both for full-time and part-time members of the Plan. As of June 30, 2014, there were 484 members in this FRS plan, compared with 513 members the previous fiscal year.

Defined Contribution Plans

Charter School and Early Development Center Employees

Effective July 1, 2000, the City established a defined contribution plan for employees of the Charter Schools and Early Development Centers (the Charter Schools' Plan) created in accordance with Internal Revenue Service Code Section 401(a) and Ordinance 1345 and amended by Ordinance 1401 dated April 3, 2002. If a participant separates from service and subsequently becomes employed with another unit of a state or local government, then the participant may rollover the benefits into his new employer's pension plan providing said plan permits rollovers.

At September 30, 2014, there were ninety-five (95) Plan members. Effective January 1, 2002, the Charter Schools' Plan members may make voluntary after-tax contributions of up to 25 percent of compensation during the fiscal year. Such contributions are 100 percent vested at all times. The City's required contribution was 6.95 percent of the Charter School Plan member's gross salary and 5.0% for the Early Development Centers Plan members. For the 2013 fiscal year, the City contributed \$192,079 to the Charter Schools' Plan, and the members contributed \$15,923. Provisions of the Charter Schools' Plan may be amended by the City Commission. The Charter Schools' Plan is held in a trust for the exclusive benefit of the participants and their beneficiaries. Therefore, the net assets of the Charter Schools' Plan are not included in the City's financial statements.

Effective October 1, 2006 all new hires of the City's Charter Schools are required to join the defined benefit plan of the Florida Retirement System (FRS). Existing members of the defined contribution plan were given the option to continue with their defined contribution plan or to select the FRS. In fiscal year 2006, the City increased its contribution to the defined contribution plan from 5.0% to 10.77% of the Charter Schools members' gross wages, in keeping with the contribution required by the FRS.

The City's Early Development Center employees remain in the original defined contribution plan with the City continuing to contribute 5.0% of covered payroll.

Notes to Budgetary Comparison Schedule

Fiscal Year Ended September 30, 2014

NOTE 1. BUDGETS AND BUDGETARY ACCOUNTING

Annual budgets are legally adopted for all governmental funds other than the Capital Projects Fund, whose budget is adopted on a project length basis. All governmental fund budgets are maintained on the modified accrual basis of accounting, consistent with accounting principles generally accepted in the United States (GAAP), except for encumbrances, which are purchase orders and contracts issued for goods or services not received at year-end.

1. No later than sixty days prior to the close of the current fiscal year, the City Manager submits to the City Commission a budget estimate of the expenditures and revenues of all City departments and divisions for the fiscal year commencing the following October 1.
2. Two public hearings are conducted at the City's Commission Chambers, to inform the taxpayers and receive their comments. The commission-approved adopted budget is integrated into the accounting software effective October 1. It establishes the legal authority to incur expenditures up to the appropriated amount for each line item.
3. Section 30.30(F) of the Code of Ordinances requires a majority affirmative vote of the quorum to adopt the budget, which prior to October 1, is legally enacted through passage of an ordinance. Section 5.06 of the City Charter provides that no officer, department, or agency may legally expend or contract to expend amounts in excess of the amounts appropriated for any department, within an individual fund. Therefore, the legal level of control is at the department level.
4. The adopted budget may be amended as follows:
 - a. The City Manager and Finance Director approve line item adjustments within a department or a division.
 - b. The City Commission approves budget adjustments that transfer monies from fund to fund or interdepartmentally.
 - c. The City Commission may approve supplemental appropriations of revenues and expenditures during the year. Such changes are reflected in an amended budget ordinance, which is adopted within sixty days of the end of that fiscal year.
5. The final budget included budget transfers, supplemental appropriations and reductions, which modified the original adopted budget. The General Fund net upward adjustment to expenditure appropriations amounted to \$3.1 million for the fiscal year ended September 30, 2014. The main components were:
 - a. \$1.3 million increase attributable to the carryover of items from prior fiscal year;
 - b. \$1.1 million increase for the Information Technology Modernization Project;
 - c. \$0.4 million increase to reflect a reduction in anticipated budget savings; and
 - d. \$0.2 million increase to reflect the Department of Children and Families (DCF) Transitional Housing award for the fiscal year ended June 30, 2015;

City of Pembroke Pines, Florida

Notes to Budgetary Comparison Schedule

Fiscal Year Ended September 30, 2014

NOTE 1. BUDGETS AND BUDGETARY ACCOUNTING (continued)

There was a \$1.4 million upward net revenue adjustment attributable mainly to:

- a. \$0.4 million – increase in contributions to recognize Affordable Housing Trust Fund money;
- b. \$0.4 million – increase to reflect Department of Children and Families (DCF) Transitional Housing project of which \$0.2 million pertains to unspent funds from the fiscal year ended June 30, 2014 and \$0.2 million awarded for the fiscal year ended June 30, 2015;
- c. \$0.1 million – increase to reflect the Maximizing Out of School Time (MOST) 2014 Grant; and
- d. \$0.1 million – increase pertaining to lease of Station 101 to Broward County for its Regional Communication Center.

NOTE 2. BUDGETARY EXPENDITURES IN EXCESS OF APPROPRIATIONS

All General Fund budgetary expenditure categories were below appropriations for the fiscal year ended September 30, 2014.

NOTE 3. BUDGETARY COMPARISON TO ACTUAL

Budgetary comparison to actual can be found under General Fund Budgetary Highlights in the Management's Discussion and Analysis.

Source: Forms DR-403 & DR-420, Broward County Property Appraiser (BCPA).

Note: Property in Broward County is reassessed annually. The County assesses property at just value (market value) for all types of real and personal property.

Therefore, just value is equivalent to estimated actual taxable value. Tax rates are per \$1,000 of assessed value.

- (1) Just value of agricultural land classified net of use value, governmental and institutional (charitable, religious, scientific, and educational).
- (2) Widows/widowers, disability/blind, \$25,000 homestead, additional \$25,000 homestead, additional \$25,000 homestead age 65 and older, homestead assessment reduction for parents or grandparents, disabled veterans' homestead discount and deployed service member's homestead exemption.
- (3) Per Florida Statute 193.155, the reassessed value of homestead property shall not exceed the lower of a) 3% of the assessed value of the property for the prior year; or b) the percentage change in the Consumer Price Index. Per Florida Statutes 193.1554 & 193.1555, the reassessed value may not exceed 10% of the assessed value of the property for the prior year. Per Florida Statute 193.461, no lands shall be classified as agricultural lands unless a return is filed on or before March 1 of each year. Per Florida Statute 193.621, the reassessed value may not be greater than its market value as salvage.
- (4) Final adjustments to assessed value made by the Value Adjustment Board (VAB) of Broward County per Florida Statute 194.011 & BCPA.
- (5) Total direct tax rate includes debt service millage as follows: 0.3275-FY2006, 0.2606-FY2007, 0.4672-FY2008, 0.5318-FY2009, 0.5951-FY2010, 0.6780-FY2011, 0.6713-FY2012, 0.6716 -FY2013 and 0.6408 -FY2014.
- (6) Includes tax-exempt property.

Source: Assessed value data used to estimate applicable percentages provided by the Broward County Property Appraiser. Debt outstanding data provided by each governmental unit.

Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the City. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of the City of Pembroke Pines. This process recognizes that, when considering the City's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident and, therefore, responsible for repaying the debt, of each overlapping government.

(1) The percentage of overlapping debt applicable is estimated using taxable assessed property values. Applicable percentages were estimated by determining the portion of Broward County's taxable assessed value that is within the City of Pembroke Pines' boundaries and dividing it by Broward County's total taxable assessed value.

(2) Includes all governmental activities debt.

- (1) **Net available revenues** are equal to gross revenues as specific operating expenses are not applicable.
- (2) **Electric Franchise Fees** are fees collected from granting an electric franchise to Florida Power and Light Company, which consists of the non-exclusive privilege of constructing, maintaining and operating in streets, rights of way and other public places in the City, electric light and power facilities.
- (3) **Electric Public Service Taxes** are taxes levied within the corporate limits of the City on the purchase of electricity service.
- (4) **Charter School total revenues and Early Development Center lease payments** are total revenues and other financing sources (transfers in) from all Charter Schools combined plus revenues equal to the Early Development Center lease payments relating to these bonds.
- (5) **Communications Services Taxes** are taxes levied pursuant to Chapter 202, Florida Statutes, except the receipts of taxes levied pursuant to Section 202.12, Florida Statutes.
Water Public Service Taxes are taxes levied within the corporate limits of the City on the purchase of water service.
- (6) **Net Revenues** of the System are the Gross Revenues after deduction of the Cost of Operation and Maintenance.
Gross Revenues are all income and earnings, including all investment income but excluding Contributions in Aid of Construction.
(Refer to Note 9. LONG TERM DEBT under Consolidated Utility System Revenue Bonds, Series 2010 for details.)
Cost of Operations and Maintenance are current expenses for the operation, maintenance and repair of the System, excluding capital expenditures, any reserve for renewals and replacements, any allowance for depreciation and any Bond Service Requirement.
Renewal, Replacement and Improvement Fund is a reserve that is at least equal to five percent (5%) of the Gross Revenues received during the immediately preceding fiscal year.

Property Assessed Value, Outstanding Debt, Legal Debt Limit, Debt Management Policies & Covenants

September 30, 2014
(continued)

Legal Debt Limit:

There are no direct limitations imposed by the Florida Constitution or the Florida Statutes on the amount of debt that the City can issue.

Debt Management Policies:

On November 1, 2006, the City of Pembroke Pines adopted Ordinances No. 1560 and No. 1561, creating a "Debt Management Policy" and a "Derivative Debt Management Policy" respectively for the City, and amending Chapter 33 of the Code of Ordinances of the City by specifically creating Section 33.65, entitled "Debt Management Policy" and Section 33.66, entitled "Derivative Debt Management Policy," respectively.

The **Debt Management Policy** provides structure and regulation to the City's debt process, and the following limitations on the City's indebtedness:

A. Target Limitations on Unlimited Tax General Obligation Indebtedness. The City shall, as a matter of policy, conduct its finances so that the amount of direct unlimited tax general obligation ("UTGO") debt outstanding at any time that is subject to approval by the voters (excluding long-term, non-self-supporting leases) does not exceed 1.5% of the City's total taxable assessed valuation.

B. Target Limitations on Non-Self-Supporting Limited Tax General Obligation Indebtedness and Lease-Purchase Obligations. The City shall, as a matter of policy, conduct its finances so that the amount of direct, non-self-supporting, limited tax general obligation ("LTGO") debt and lease-purchase obligations outstanding at any time that are not subject to approval by the voters does not exceed 1.5% of the City's total taxable assessed valuation. Furthermore, the City shall strive to limit the annual debt service requirements on these obligations to an amount that is not greater than 10% of annual General Fund and Debt Service Fund revenues.

These limitations apply to debt obligations issued with a specific LTGO pledge, and obligations that are in effect secured by a LTGO pledge and are not self-supporting.

C. Target Limitations on Lease-Purchase Financing of Equipment and Furnishings. The City may enter into short-term lease-purchase obligations to finance the acquisition of capital equipment and furnishings with estimated useful lives of less than ten years. Outstanding lease-purchase obligations issued to finance capital equipment and furnishings shall not exceed 0.25% of the City's total taxable assessed valuation. Repayment of these lease-purchase obligations shall occur over a period not to exceed the useful life of the underlying asset or in any case no longer than ten years from the dated date of such obligations. The Finance Department shall be responsible for developing procedures for use by City Departments interested in participating in lease-purchase programs, and for setting repayment terms and amortization schedules, in consultation with participating departments.

D. Limitations on General Fund Loan Guarantees and Credit Support. As part of the City's financing activities, General Fund resources may be used to provide credit support or loan guarantees for public or private developments that meet high priority City needs. Before such General Fund commitments are made, specific policy goals and objectives that determine the nature and type of projects qualifying for such support, and specific limitations to be placed on the maximum amount of General Fund resources pledged to such projects, shall be developed. The City Manager and the Finance Director shall be responsible for coordinating the development of such policies and goals, which shall not take effect until approved by the City Commission. General Fund loan guarantees shall be subject to the overall debt limitations set forth in B, above.

Recognizing the limited capacity of the City's General Fund to support both ongoing operating programs and secure long-term debt obligations, use of the General Fund to secure such obligations must first be approved by the Finance Director and the City Manager. Key factors that will be considered in determining whether or not the General Fund should be used to secure a particular debt obligation will include one or more of the following:

1. Demonstration of underlying self-support, thus limiting potential General Fund financial exposure.
2. Use of General Fund support as a transition to a fully stand alone credit structure, whereby interim use of General Fund credit support reduces borrowing costs and provides a credit history.
3. General Fund support is determined by the City Commission to be in the City's overall best interest.
4. General Fund support is justified to achieve a specific public benefit for the residents of the City as recommended by the City Manager and approved by the City Commission.

E. Target Limitations on the Issuance of Revenue-Secured Debt Obligations. The City shall seek to finance the capital needs of its revenue producing enterprise activities through the issuance of revenue-secured debt obligations. Prior to issuing revenue-secured debt obligations, City Departments, in consultation with the Finance Director, will develop financial plans and projections showing the feasibility of the planned financing, required rates and charges needed to support the planned financing, and the impact of the planned financing on ratepayers, property owners, City Departments, and other affected parties. The amount of revenue-secured debt obligations issued will be limited by the feasibility of the overall financing plan as determined by the Finance Director in consultation with the Financial Advisor.

Revenue-secured debt obligations must first be reviewed and approved by the Finance Director before being issued.

The **Derivative Debt Management Policy** establishes guidelines for the use and management of all interest rate exchange agreements incurred in connection with the incurrence of debt obligations.

Covenants:

The City is also governed by the covenants of individual revenue bonds if the City plans to issue additional parity bonds. The covenants are as follows:

Public Improvement Revenue Bonds, Series 2001

Additional parity bonds payable from the pledged revenues may be issued for the acquisition or construction of capital improvements in the City, or for refunding of bonds, and only if the pledged revenues for the most recent full fiscal year equal at least 125% of the maximum bond debt service requirement on all existing and proposed parity bonds.

Taxable Communications Services Tax Revenue Bonds, Series 2003A, Taxable Communications Services Tax Revenue Bonds, Series 2004, Taxable Communications Services Tax Revenue Bonds, Series 2013, and Taxable Communications Services Tax Revenue Bonds, Series 2014

Additional parity bonds payable from the pledged revenues may be issued only if the pledged Revenues for the most recent full fiscal year equal at least 120% of the maximum bond debt service requirement on all existing and proposed parity bonds.

Public Improvement Revenue Bonds, Series 2004A, Public Improvement Revenue Bonds, Series 2004B, and Public Improvement Revenue Bonds, Series 2014

Additional parity bonds payable from the pledged revenues may be issued for acquisition or construction of capital improvements in the City, or for refunding of bonds, and only if the pledged revenues for the most recent full fiscal year equal at least 125% of the maximum bond debt service requirement on all existing and proposed parity bonds.

Public Improvement Revenue Refunding Bonds, Series 2006

Additional parity bonds payable from the pledged revenues may be issued for acquisition or construction of capital improvements in the City, or for refunding of bonds, and only if the pledged revenues for the most recent full fiscal year equal at least 125% of the maximum bond debt service requirement on all existing and proposed parity bonds.

Capital Improvement Revenue Refunding Bonds, Series 2006

Additional parity franchise revenue bonds payable from the pledged revenues may be issued only if the pledged revenues for such preceding fiscal year equal at least 125% of the maximum bond debt service requirement on all existing and proposed parity franchise revenue bonds.

Capital Improvement Revenue Bonds (Phase II of Forman Senior Housing Project), Series 2007

Additional parity franchise revenue bonds payable from the pledged revenues may be issued only if the pledged revenues for such preceding fiscal year equal at least 125% of the maximum bond debt service requirement on all existing and proposed parity franchise revenue bonds.

Charter School Revenue Bonds, Series 2008

Additional Parity Bonds payable on a parity with the 2008 Bonds may be issued for acquisition or construction of additional educational facilities and related facilities for Charter Schools or Charter Lab School or for refunding of Bonds, and only if the pledged revenues for the most recent full fiscal year equal at least 120% of the maximum bond debt service requirement on all existing and proposed parity bonds.

Variable Rate Capital Improvement Revenue Refunding Bonds, Series 2008

Additional parity franchise revenue bonds payable from the pledged revenue may be issued only if the pledged revenues for the most recent full fiscal year equal at least 125% of the maximum bond debt service requirement on all existing and proposed parity franchise revenue bonds

Capital Improvement Revenue Refunding Bonds, Series 2010

Additional bonds and additional parity franchise revenue bonds payable from the pledged revenues may be issued only for acquisitions or construction of additions, extensions or improvements to the Project, or for refunding of bonds, and only if the pledged revenues for the preceding fiscal year equal at least 125% of the maximum bond debt service requirement on all existing and proposed parity bonds.

Consolidated Utility System Revenue Bonds, Series 2010

Additional Parity Obligations shall be issued after the amount of the Net Revenues derived for any consecutive twelve (12) months out of the preceding twenty-four (24) months preceding the date of issuance of the proposed Additional Parity Obligations (the "Test Period") adjusted as provided in Resolution No. 3287, is equal to and not less than one hundred twenty percent (120%) of the Maximum Bond Service Requirement becoming due in any Bond Year thereafter on all existing and proposed Additional Parity Obligations.

City of Pembroke Pines, Florida

General Information

Introduction

The City of Pembroke Pines (City) is a multi-cultural, ethnically diverse and integrated city, located in the Miami-Fort Lauderdale-Pompano Beach, FL Metropolitan Statistical Area, which is the 8th largest in the country with an estimated population of 5.7 million. The population of the City is currently estimated at 157,905 which is the second largest city in Broward County (County) and the eleventh largest city in Florida (State). During the year, the City has a mean average annual temperature of 75.8 degrees, which allows many residents and visitors to enjoy a relaxed lifestyle geared to the outdoors. The general terrain of this 34.25-square mile residential city is similar to that of other southwestern County communities. Elevations range from 7 to 8 feet above sea level. Fort Lauderdale and the cruise ship docks at Port Everglades are 45 minutes away northeast, and Miami, 45 minutes south of the City, provide numerous cultural advantages of a larger metropolitan area as well as a major cruise ship port. South of the City is the City of Miramar with its notable Miramar Park of Commerce, to the northwest are the upscale communities of Southwest Ranches and Weston, and northeast is the Town of Davie, home of Nova Southeastern University, the Bergeron Rodeo Grounds, and the exotic Flamingo Gardens. The City also borders Cooper City on the north and the oceanfront city of Hollywood on the east. The City maintains its own top-rated police and fire and rescue departments, provides two sites containing a total of five senior housing apartment buildings, provides other senior-related services, and maintains its own Water Treatment Plant.

Airports

The City has the benefit of being served by a number of airlines, as the Fort Lauderdale-Hollywood International Airport is only a 40-minute drive northeast, and the Miami International Airport, located south of Pembroke Pines, is a little over a 45-minute drive. The Palm Beach International Airport can also be reached by a one and a half hour drive north of the City. The Opa-locka Airport, a full Fixed-Base Operator (FBO) service executive airport located in North Miami-Dade County is about a 30-minute drive south of the City. Other full service FBOs include the Boca Raton Airport which is about a one hour drive northeast of the City, and the City of Fort Lauderdale Executive Airport which is about a 45-minute drive northeast. The North Perry Airport, originally opened in the City by the U. S. Navy in 1943 as a World War II training field, is a general aviation facility open to non-commercial, non-jet aircraft. Facilities include a charter service, aircraft rentals, repair and fuel for small aircraft, as well as a flight school.

Road and Highway Systems

Road and highway facilities are excellent in the City. Pines Boulevard is the main east-west corridor that connects into the Atlantic Ocean beaches at the east end and into the Everglades at the west end. The City has a complete and adequate network of approximately 460 miles of paved and signalized roadways, in addition to bike paths and sidewalks that meet the latest national standards. The Florida Turnpike passes through the eastern section of the City and provides transportation to the north central part of the State and as far south as the entrance to the Florida Keys. Interstate 95, which is about 5 miles east of the community, provides alternative north-south transportation to the City and other areas of the southeastern section of Florida. Interstate 75, a north-south controlled access highway located in the geographic center of the City, provides north-south transportation from Miami to Tampa via the Alligator Alley which crosses the Florida peninsula connecting the Atlantic Ocean east coast with the Gulf of Mexico west coast. US 27, a major highway that winds through the central portion of Florida to the state capital in Tallahassee, passes through the western edges of the City.

General Information

Parks & Recreation

The City operates a year-round comprehensive community recreation program. The hub of the City's athletic, cultural, and social programs for adults and youth are the five recreation centers. Programs include such diverse activities as art, music, baseball, softball, football, volleyball, basketball, swimming, tennis, soccer, roller-hockey, karate, gymnastics, preschool and after-school programs, Jazzercise, and dancing.

Located throughout the City are 31 fully developed recreation facilities covering more than 975 acres. In addition, three public golf courses are located within the City besides the City-owned and renovated 18-hole Pembroke Lakes Golf and Racquet Club. The other three are the Hollybrook Golf and Tennis Club, the Flamingo Lakes Country Club located in Century Village at Pembroke Pines, and the Grand Palms Golf and Country Club Resort. In August 2002, the City purchased 57 acres in western portion of the City which has been developed with wetlands and athletic facilities, including soccer fields, handball courts and basketball courts. Cultural arts programs are available at the City's River of Grass Arts Park and the Fletcher Art and Cultural Center. A number of the residential developments in the community are also served by their own private recreational facilities. The City is also home to the County-operated C. B. Smith Park, a large Regional Park offering many activities, including camping, boat rentals, and a 4.69-acre aquatic complex interactive water playground with two waterslides and a tube ride. The park hosts 20,000 visitors every year who attend the annual KISS Country 99.9 FM's Chili Cook-off and Concert. Of special interest to the public is the City-owned Chapel Trail Nature Preserve consisting of 459 acres of reconstructed natural habitat featuring canoe rentals, an Environmental Interpretive Center, and a 1,650-foot elevated boardwalk that allows visitors to walk out over and into the wetlands.

Medical Facilities

Healthcare services for the City residents are provided through Memorial Hospital West (located at the northeast corner of Pines Boulevard and Flamingo Road), Memorial Hospital Pembroke (located on the southeast corner of University Drive and Sheridan Street), the Memorial Urgent Care Center (located on the eastern side of Douglas Road, between Pines Boulevard and Pembroke Road), and Memorial Hospital Miramar (located on 172nd Avenue in adjacent Miramar) which serves the western portion of the City. These facilities are all a part of the Memorial Health Care System and offer state of the art diagnostics.

Fifteen minutes north of the City off Interstate 75 is an upscale facility of the world-famous Cleveland Clinic Hospital.

Memorial Manor is the County's first public, skilled nursing facility. The 120-bed nursing home, located adjacent to the Memorial Urgent Care Center on Douglas Road, provides long-term nursing home care and short-term rehabilitative care.

Educational Facilities

The City of Pembroke Pines is a true pioneer in charter school education. The City currently operates three charter elementary schools, one charter lab elementary school operated in collaboration with Florida State University (FSU), three charter middle schools and one charter high school that serve approximately 5,925 students. Of this total, the FSU charter school students include 679 in elementary school; the other three elementary schools have 1,928 students; the two middle schools 1,603 students; and the high school campus which was extended to include a middle school has 1,715 students. These facilities offer smaller class sizes, and complement the already existing public education system provided through the Broward County School Board. In addition to the City's charter schools, within the City are fifteen elementary schools, six middle schools and four other high schools. This also includes Somerset Academy, a charter school system

General Information

operated by Academica Corp. A community school offering evening classes for adults is located at the Walter C. Young Resource Center. The City also operates four early development centers for pre-kindergarten children.

In addition, within the City are post-secondary as well as post-graduate institutions. Broward College has two campuses in the City - the South Campus located just east of University Drive on Pines Boulevard, and the Pines Center/Academic Village Campus located on Sheridan Street west of Interstate 75. The campus of the Venezuelan-administered Jose Maria Vargas University is a 24,530 square foot facility providing educational programs at the certificate, undergraduate, and graduate levels. Keiser College also operates its Pembroke Pines branch campus with a 30,000-square foot facility offering various associate, undergraduate and graduate programs. Barry University also maintains a branch campus in the Pines Professional Center in the western portion of the City. Two schools in the adjacent City of Miramar are DeVry University which offers a variety of Certificate Programs, Associate, Bachelor and Master's Degrees; and a branch of the Puerto Rican Ana G. Mendez University, a private school that serves bilingual students in a 30,000-square foot building at the Miramar Park of Commerce just south of the City.

The City is served by three County-operated libraries – the Southwest Regional Library located at the Academic Village, the South Regional Library located at the Broward College South Campus, and the Pembroke Pines Library located at the Walter C. Young Resource Center.

Arts and Culture

The City promotes arts and cultural activities for its citizens. The City maintains a Glass Gallery in the City Hall lobby programming public art exhibitions of local artists and sculptors. The artists are selected by the City's Arts & Culture Advisory Board and often include special opening exhibit programs accompanied by music and dance performances. An Artists' Colony complex has been developed through the renovation of an existing structure located in the Senator Howard C. Forman Human Services Campus. The facility named *Studio 18 in the Pines* contains rental studios and gallery space consisting of 18 inside studios, 5 outside studios, a jewelry studio and a ceramics studio. The City also provides space for theatrical performances at the *Susan B. Katz Memorial Auditorium*, a 450-seat auditorium located in the Academic Village for the *Pembroke Pines Theatre of the Performing Arts* - a local theatrical group that stages numerous outstanding performances, including Broadway musicals. Special events are provided to the City's residents through the Parks & Recreation Department and include annual events such as *Kids Konnection*; the *Art Festival in the Pines* which is conducted in the River of Grass Arts Park; the *Pines Day* celebration commemorating the founding of the City in 1960, and many other community, cultural and sports activities staged throughout the year. The Pembroke Pines Historical Museum is located in the Village Community Center on the City's east side, and has opened a new and expanding World War II exhibit. Artifacts are displayed from donations by the City's Second World War veterans, and from two archeology digs on the City's North Perry Airport which served as an outlying field of the Miami Naval Air Station from 1943 until 1945. Each year, the city underwrites nine free outdoor jazz performances that feature local jazz musicians. It also hosts an annual, two-day, outdoor arts celebration that features the work of nearly 100 artists and attracts more than 15,000 visitors each year.

Communications

All principal television networks are received within the City with broadcast stations in Boynton Beach, Fort Lauderdale, Hollywood, Miami, Miramar, Palm Beach Gardens, and West Palm Beach. Cable television is provided to the entire City by Comcast and BellSouth Entertainment, Inc. The City has its own informational cable channel that televises all City Commission (Commission) meetings and provides information such as upcoming events and public service information.

City information can also be accessed through the Internet site, www.ppines.com. On the web site,

City of Pembroke Pines, Florida

General Information

information including Commission meeting dates, trash and recycling schedules, a calendar of events, budget information, and annual and monthly financial statements are available.

Commercial

The City contains a large and diversified number of retail establishments, including the expansive Pembroke Lakes Mall with its major department stores, including Dillard's, JCPenney, Macy's and Sears plus approximately 135 more stores and restaurants. A stunning addition to the City's retail base is the Shops at Pembroke Gardens, located at Interstate 75 and Pines Boulevard. This complex contains approximately 70 upscale stores and restaurants, and is centrally located to serve the residents of the City and neighboring municipalities. The City is the executive office headquarters for Claire's Stores, Inc., an international retail chain which owns, franchises or joint ventures approximately 3,369 stores selling costume jewelry and fashion accessories.

The dynamics of the growth of commercial and residential activities in the City and its surrounding area has resulted in at least seven hotels offering a variety of hospitality suites. Within the City is the Grand Palms Golf and Country Club Resort at Pines Boulevard just west of Interstate I-75 offering upscale lodgings, as well as the Hampton Inn Hotel just east of Interstate I-75 and Sheridan and the adjacent newly-built all-suite Holiday Inn Express Hotel & Suites. Just to the south, east of Interstate I-75 at Miramar Parkway in adjacent Miramar, are the Courtyard by Marriott, the Residence Inn by Marriott, the Hilton Garden Inn and the Wingate by Wyndham.

CITY OF PEMBROKE PINES, FLORIDA
NOTE TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS,
STATE FINANCIAL ASSISTANCE PROJECTS AND LOCAL AWARDS
FOR THE YEAR ENDED SEPTEMBER 30, 2014

NOTE A – BASIS FOR PRESENTATION

The accompanying Schedule of Expenditures of Federal Awards, State Financial Assistance and Local Awards includes the federal, state and local grant activity of the City of Pembroke Pines, Florida and is presented on the modified accrual basis of accounting. The information in this schedule is presented in accordance with the requirements of OMB Circular A-133, *Audits of States, Local Governments, and Nonprofit Organizations*, and Chapter 10.550, Rules of the Auditor General. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of the basic financial statements.

Contingency

The grant revenue amounts received are subject to audit and adjustment. If any expenditures are disallowed by grantor agency as result of such audit, any claim for reimbursement to the grantor agencies would become a liability of the City. In the opinion of management, all grant expenditures are in compliance with the terms of the grant agreements and applicable federal and state laws and regulations.

**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON
AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE
WITH GOVERNMENT AUDITING STANDARDS**

To the Honorable Mayor, City Commissioners
and City Manager
City of Pembroke Pines, Florida

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of City of Pembroke Pines, Florida as of and for the year ended September 30, 2014, and the related notes to the financial statements, which collectively comprise City of Pembroke Pines, Florida's basic financial statements, and have issued our report thereon dated March 26, 2015. Our report includes a reference to other auditors who audited the financial statements of the City's Firefighters and Police Pension Trust Funds, as described in our report of the City's financial statements. This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that are reported separately by those auditors.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered City of Pembroke Pines, Florida's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of City of Pembroke Pines, Florida's internal control. Accordingly, we do not express an opinion on the effectiveness of City of Pembroke Pines, Florida's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether City of Pembroke Pines, Florida's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON
INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY OMB CIRCULAR A-133
AND CHAPTER 10.650, RULES OF THE FLORIDA AUDITOR GENERAL**

To the Honorable Mayor, City Commissioners
and City Manager
City of Pembroke Pines, Florida

Report on Compliance for Each Major Federal Program

We have audited City of Pembroke Pines, Florida's (the "City") compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* and Chapter 10.650, Rules of the Florida Auditor General that could have a direct and material effect on each of the City's major federal programs and state projects for the year ended September 30, 2014. The City's major federal programs and state projects are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs and state projects.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of the City's major federal programs and state projects based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations* and Chapter 10.650, *Rules of the Florida Auditor General*. Those standards, OMB Circular A-133, and Chapter 10.650, require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program and state project occurred. An audit includes examining, on a test basis, evidence about the City's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program and state project. However, our audit does not provide a legal determination of the City's compliance.

Opinion on Each Major Federal Program and State Project

In our opinion, City of Pembroke Pines, Florida, complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs and state projects for the year ended September 30, 2014.

Report on Internal Control Over Compliance

Management of the City is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the City's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program and state project to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and state project and to test and report on internal control over compliance in accordance with OMB Circular A-133 and Chapter 10.650, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the City's internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program or state project on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program or state project will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program or state project that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133 and Chapter 10.650. Accordingly, this report is not suitable for any other purpose.

MANAGEMENT LETTER PURSUANT TO THE RULES OF THE AUDITOR GENERAL FOR THE STATE OF FLORIDA

To the Honorable Mayor, City Commissioners
and City Manager
City of Pembroke Pines, Florida

REPORT ON THE FINANCIAL STATEMENTS

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of City of Pembroke Pines, Florida (the "City"), as of and for the year ended September 30, 2014, which collectively comprise the City's basic financial statements and have issued our report thereon dated March 26, 2015. We did not audit the financial statements of the Pension Trust Fund for Firefighters and Police Officers which represent 69% of the total net position, 63% of the total additions, and 62% of deductions of the fiduciary fund totals. Those financial statements were audited by other auditors whose report thereon has been furnished to us, and our opinion, insofar as it relates to the amount included for the Pension Trust Fund for Firefighters and Police Officers is based solely on the reports of the other auditors.

AUDITORS' RESPONSIBILITY

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*; and Chapter 10.550, Rules of the Auditor General.

OTHER REPORTS AND SCHEDULES

We have issued our Independent Auditors' Report on Internal Control over Financial Reporting and Compliance and Other Matters based on an Audit of the Financial Statements Performed in Accordance with *Government Auditing Standards*; Independent Auditor's Report on Compliance for Each Major Federal Program and State Financial Assistance Project and Report on Internal Control over compliance; Schedule of Findings and Questioned Costs; and Independent Accountants' Report on an examination conducted in accordance with *AICPA Professional Standards*, Section 601, regarding compliance requirements in accordance with Chapter 10.550, Rules of the Auditor General. Disclosures in those reports and schedule, which are dated March 26, 2015, should be considered in conjunction with this management letter.

PURPOSE OF THIS LETTER

Additionally, our audit was conducted in accordance with Chapter 10.550, Rules of the Auditor General, which governs the conduct of local governmental entity audits performed in the State of Florida. This letter includes the following information, which is not included in the aforementioned auditor's report or schedule:

- I. Current year findings and recommendations.**
- II. Status of prior year findings and recommendations.**
- III. Compliance with the Provisions of the Auditor General of the State of Florida.**

Our management letter is intended solely for the information and use of the Legislative Auditing Committee, members of the Florida Senate and the Florida House of Representatives, the Florida Auditor General, Federal and other granting agencies, and applicable management, and is not intended to be and should not be used by anyone other than these specified parties.

We wish to thank the City of Pembroke Pines, Florida and the personnel associated with it, for the opportunity to be of service to them in this endeavor as well as future engagements and the courtesies extended to us.

III. COMPLIANCE WITH THE PROVISIONS OF THE AUDITOR GENERAL OF THE STATE OF FLORIDA

1. Unless otherwise required to be reported in the auditors' report on internal control over financial reporting and on compliance and other matters or schedule of finding and questioned costs, the management letter shall include, but not be limited to, a statement as to whether or not corrective actions have been taken to address findings and recommendations made in the preceding financial audit report pursuant to Rule 10.557(3)(b) or (c). There were no recommendations made in the preceding annual financial audit.
2. There were no significant findings and recommendations to improve the City's financial management, accounting procedures, and internal control for the fiscal year ended September 30, 2014.
3. There were no findings of noncompliance with provisions of contracts or grant agreements, or abuse, that have occurred, or are likely to have occurred, that have an effect on the financial statements that is less than material but which warrants the attention of those charged with governance.
4. The City of Pembroke Pines, Florida was incorporated in accordance with House Bill No. 1413 on June 20, 1960. There are no component units related to the City.
5. The City of Pembroke Pines did not meet any of the conditions described in Section 218.503(1), Florida Statutes.
6. The annual financial report filed with the Florida Department of Financial Services pursuant to Section 218.32(1)(a), Florida Statutes agrees with the September 30, 2014 financial audit report.
7. We applied financial condition assessment procedures pursuant to Sections 10.554(1)(i)5.c. and 10.556(8), Rules of the Auditor General and no deteriorating financial conditions were noted. It is management's responsibility to monitor the City of Pembroke Pines, Florida's financial condition, and our financial condition assessment was based in part on representations made by management and the review of financial information provided by the same.

INDEPENDENT ACCOUNTANTS' REPORT

Honorable Mayor, City Commission, and City Manager
City of Pembroke Pines, Florida,

We have examined City of Pembroke Pines, Florida's (the "City") compliance with the requirements of Section 218.415, Florida Statutes, *Local Government Investment Policies*, during the year ended September 30, 2014. Management is responsible for the City's compliance with those requirements. Our responsibility is to express an opinion on the City's compliance based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included examining, on a test basis, evidence about the City's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion. Our examination does not provide a legal determination on the City's compliance with specified requirements.

In our opinion, the City complied, in all material respects, with the aforementioned requirements for the year ended September 30, 2014.

This report is intended solely for the information and use of management and the State of Florida Auditor General and is not intended to be and should not be used by anyone other than these specified parties.
